Britain's Labor Government To Go To Country

KING GEORGE HAS AGREED TO REQUEST OF PREMIER

That Parliament Should Be Dissolved—Labor Government Would Have Carried on Policy of Promoting Interests of Commonwealth.

London, Oct. 9.—King George, waited on by Premier Ramsay MacDonald this morning following the government's defeat in the House of Commons last night, agreed to the dissolution of parliament. Mr. MacDonald left Buckingham palace after an audience which lasted one hour. It was officially announced that he had asked the King for dissolution of parliament in line with his previously announced policy of appealing to the country through a general election to approve the course pursued by his government.

ernment had been allowed to carry on its policy, a policy, which, I maintain, has been one of honest politics and of promotion of the interests of commonwealth.

Parliament Prorogued. London, Oct. 9.—At six o'clock this evening, the House of Commons was summoned to the House of Lords to hear the king's speech, read by the lord chancellor, giving assent to the Irish boundary bill and proroguing parliament.

Washington Wins Sixth Game Of World Series By 2-1 Score

Washington, D.C., Oct. 9.—King Baseball was back in Washington today to put on his final act of the world series classic of 1924 in one or two scenes—depending upon the success of Senators in their tilt with the New York Giants in the sixth game for baseball's premier honors. Once again the nation's capital thrust aside its business to jam its way into Griffith Stadium where Washington, with its back to the wall, must defeat New York or yield finally their hope of the world championship. Crowds laid early siege to the ticket booths for bleacher seats and all other space had been sold out long before the outcome of the New York games had been determined. Roger Peckinpaugh made a heroic effort to make the lineup and "Bucky" Harris gambled his remaining chips on Tom Zachary with Marberry for relief. To clinch the series McGraw of Giants used Arthur Nehf, who won the first game from Johnson with Barnes ready to wage battle if Nehf's arm gave out. The line up:

Washington—McNeely, cf; Harris, 2b; Rice, rf; Goslin, lf; Judge, 1b; Bluege, 3b; Peckinpaugh, ss; Ruel, c; Zachary, p.
Giants—Lindstrom, rb; Frisch, 2b; Young, rf; Kelly, 1b; Meusel, lf; Wilson, cf; Jackson, ss; Gowdy, c; Nehf, p.

MACDONALD IS DEFEATED; APPLIES FOR DISSOLUTION

Fall of Government Caused By Withdrawal of Prosecution of Communist Editor—Labor Party Welcomes An Appeal to People.

London, Oct. 9.—Great Britain's first Labor government virtually came to an end at 11 o'clock last night when by a combination of Conservative and Liberal votes the House of Commons carried a motion demanding that a select committee of the house investigate the action of the attorney-general, Sir Patrick Hastings, in withdrawing prosecution in the case of the Communist James R. Campbell, acting editor of the Workers' Weekly, charged with inciting His Majesty's forces to sedition.

but they had seemingly committed themselves too far to recede.

RAMSAY MACDONALD

Labor Welcomes Election. There is little doubt that the Labor party and the government welcome an appeal to the country, as they contend, thrust upon them, and are convinced that they will return to the House of Commons a much stronger party, even though they may not command a majority in the House over all other parties. They believe they have a good cause to present to the electors in what they argue is the triviality of the question upon which they have been defeated, and, on their record, especially in the realm of foreign affairs and finance.

During the morning the parliamentary labor committee held a session to decide upon its final course of action in the House, and at this meeting Prime Minister MacDonald intimated that the Government intended to resist the Liberal amendment to the Conservative motion which deals with the Government's withdrawal of sedition charges against James Ross Campbell, editor of the Workers' Weekly, a Communist publication. The Premier's attitude was unanimously approved.

Motion of Censure. Sir Robert Horne, Conservative leader, in introducing the Conservative motion of censure, said that if the administration of the law became subject to any consideration of political expediency, justice, as it had been known in Great Britain for centuries, would disappear.
