

CANADA'S PART IN BRITISH ELECTION

Continued from Page 10.

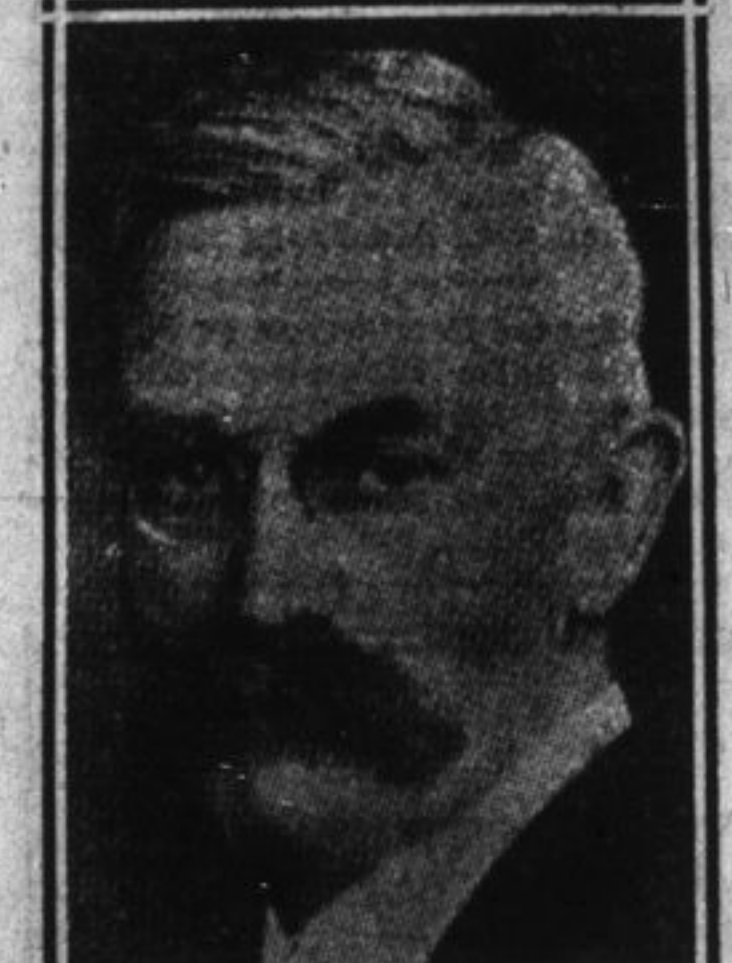

at Queen's University and went to England in 1904 where he took up further studies in Manchester University, by way of a debating course. He has contributed political articles to many British papers and has spent practically all his time since graduating from Manchester as a commercial traveller.

He worked for a time in Los Angeles, California, in a coal yard. He was offered the formanship of it on condition that he joined a union and become a U. S. citizen. "A British subject, I was born, a British subject I will remain," was his heated reply and came home. He is 42.

He is the sitting member for West Salford, and was on a tour of Canada inspecting immigration possibilities for the Labor Government when the election was announced.

PERCY HURD.

Percy Angier Hurd, who is contesting the Devon division of Wiltshire, is no stranger to the House of Commons. He entered Parliament at the general election of 1918 as member for Frome. Born at Berkeley in Gloucestershire in 1864, he has been engaged in journalism all his life and is well-known to Canadians as the London editor of the Montreal Daily Star, where his cables appear under the pseudonym of "Windermere." He

took a prominent part in the establishment of The Outlook in 1898 and was its editor and managing director until 1904. Since then he has been known to thousands of Canadians as the editor of the Canada Gazette and as assistant secretary and afterwards as secretary of the Tariff Commission. He has written extensively on imperial relations and more recently he was one of the official compilers of a volume on the "Ruined Homesteads of France." He made a lecturing tour of Canada in 1919 and again came as delegate to the Imperial Free Conference in 1920. He married Hannah, daughter of Rev. Dr. Cox, of Dundee.

SIR NEWTON MOORE.

Although his life work has been solely achieved in Australia Sir Newton Moore, K.C.M.G., the member for Ippington who is again a candidate for election, is by no means a stranger to Canada, and is closely associated with an important industry of this country, being a director of the British Empire Steel Corporation. Sir Newton Moore paid a visit to the Besse properties last year in Newfoundland and Nova Scotia, representing the English interests which have heavy holdings in this corporation. Sir Newton is a native of Australia, being born at Bunbury, a flourishing seaport of Western Australia. A surveyor by profession, as a young man Sir Newton helped to lay out the famous Coolgardie gold fields. He was sent to Parliament from his home town in 1904 and the next year entered the State Cabinet and at the age of 36 he became Premier of Western Australia. He was for many years interested in militia affairs. He has been High Commissioner for Australia in London, General Commanding the Australian Forces Overseas, Commanding Officer of the Australian Light Horse, and a score of other things. He has youth and great wealth on his side and much shrewdness and ability.

FRONTENAC COUNTY STICKS WITH "DRYS"

The Majority Will Be About 1,400 When All Polls Report.

With five polls to hear from out of the forty-one, the "drys" had a majority of 1,279 in the county of Frontenac. In the vote on importation in 1921, the county went "dry" by 2,256 majority.

The first return to reach the Whig office arrived by telephone at exactly 6.15 o'clock Thursday evening, and it came from Florida, the farthest north voting place in Kingston township. The next came in at 6.20 and it was from Westbrooke. Both these returns coming in in such a brief time after the closing of the polls and both from country points were somewhat of a surprise to the Whig staff, which was expecting the first to come from the city. The other returns from country points came in fairly rapidly and were quickly posted.

Howe Island went "wet" by a vote of 4 to 41.

Kingston township polled a majority of 305 for the "drys."

Wolfe Island voted in favor of government control by a majority of 143.

See illustrated booklets showing Stanfield's wide range of styles and weights in men's, women's and children's underwear will be mailed on request. Write for them.

STANFIELD'S LIMITED
TRAURO, N. S.

THOUGHTFUL women are particular about underwear—rightly so.

The woman who chooses Stanfield's is assured of getting a soft; luxurious fabric, soothing to the tenderest skin; snug tailored-to-fit comfort and exceptionally long wear. Yet Stanfield's is not expensive. Compare it garment for garment, price for price. You will find it, over a long period of wear, the most economical underwear you can buy.

Stanfield's will not shrink!
You don't have to buy a size larger to "allow for shrinking." Be careful to select the size that

fits you perfectly, use ordinary care in washing according to our directions—and a Stanfield's garment will keep its size and snug tailored-to-fit shape as long as you wear it. **And Stanfield's stands strenuous wear.**

Pick and examine any Stanfield's garment

Feel its delightful softness. See how it's finished with scrupulous attention to every detail; how the seams lie flat, the buttons are sewn on to stay. Note its generous cut, the full length of the garment—no skimping. This careful making is a part of every Stanfield's garment, whatever price you pay, and in every weight: Pure Virgin Wool, Silko-Wool and mixtures of Wool and Silky Cotton.

There's a size, style and weight of Stanfield's for every member of every family, priced from \$1 to \$10.

STANFIELD'S Undrinkable UNDERWEAR

BE COMFORTABLE THIS WINTER—WEAR STANFIELD'S

If people were as bad as some people think, there would be a big shortage of angels in heaven.

To Enter Drydock.
The steamer Toronto will enter the Collingwood Shipyard drydock next week to be lengthened forty feet. She will be in Kingston all winter.

Never throw away any bones or meat scraps left from a roast. Put

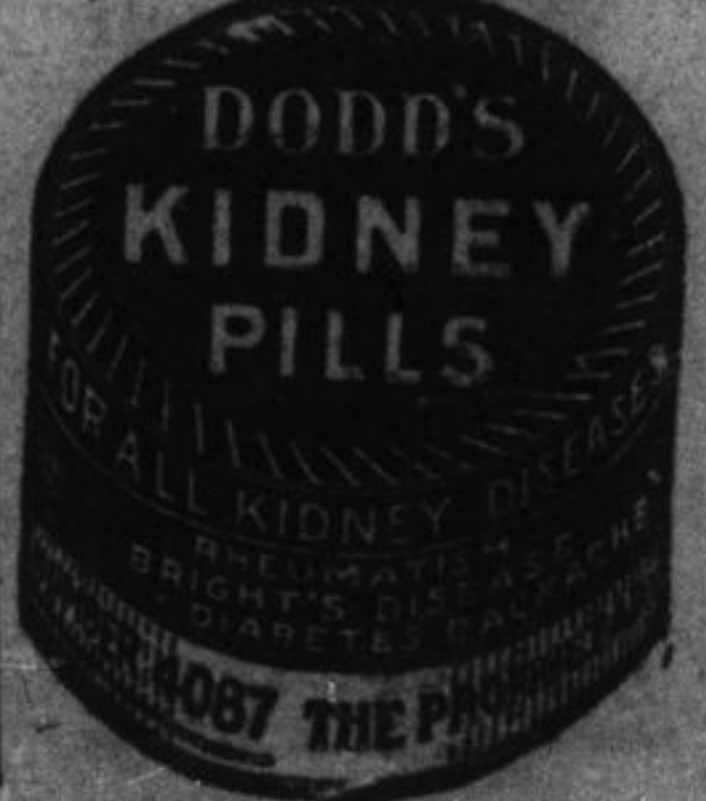

in cold water and cook for several hours and you have a good foundation for vegetable soup.
Bands of fur used on the collars and cuffs of street gowns are very narrow, merely used to outline rather than to swathe.
One egg will thicken a cup of milk for cup custards.

DOMINION OF CANADA VICTORY LOAN BONDS

MATURING 1st NOVEMBER, 1924

THE BANK OF MONTREAL, under authority of the Minister of Finance, is prepared to redeem the above bonds in full at maturity, without charge, at any of its Branches in Canada.

For the convenience of owners of the bonds, the Bank of Montreal will accept the bonds at any time prior to November 1st, and will make payment in each case on November 1st, either by issuing a cheque or by placing the amount to the owner's credit in the books of the Bank, as the owner may desire.

Highbrook, majority 77.

Caught Disease On the HANDS!

Skin disease threatens us every day. Invisible germs of blood-poison, eczema, etc., are waiting to infect the least cut or sore place. The money you save carries germs—you get them on the hands, nails and straps of the train and street cars, and in a score of other ways.

Solely through Zam-buk, Mr. Henry C. Davis, of South 17th Street, Kansas City, U.S.A., has just escaped a virulent type of eczema, contracted, he suspects, through use of public towels.

"I had medical advice," he says, "tried in addition all sorts of so-called eczema remedies, without finding the hoped-for relief. Zam-buk treatment soon gave positive results. It took away the painful irritation and quickly purified and healed the deep troublesome sores."
