AUNT HET

I carry Sallie Ovide sometimes. I'm fat and cheerful, an' can't never work up the feelin' that I'm a martyr."

MAY COMMEMORATE FIRST HOCKEY GAME

Played in Kingston When the Queen's New Arena is Opened.

In connection with the official opening of the new Jock arena at Queen's University, which will take place about the first of December, it is very likely that R.M.C. and Queen's hockey teams will play the opening game. The first hockey match played in Canada took place in Kingston on the ice in the harbor in front of the city buildings, and Queen's and R.M.C. were matched on that occasion. It has been suggested that it would be very nice to commemorate that event by having teams from the same colleges play the first game in the new rink. If these plans are carried out, it is very likely that there will also be a social event in connection with the opening.

The Linde Canadian Refrigeration Company, Ltd., which has the contract to put in the ice plant at the new rink, is pushing the work along very rapidly. On Wednesday morning the work of putting down the nine miles of pipe which will cover the entire playing surface was commenced. The pipes which are inch and a quarter in size, are run the full length of the rink, which is 210 feet, and there will be 208 lengths of pipe. The distance between the pipes from centre to centre is 4 5/8 inches. A cylinder bend six inches in depth is first built and then the pipes are placed on top of the scantlings which are soaked in a solution. It will take about one week to put the pipes in place and then more cylinders will be thrown in between the pipes. The testing of the system will then commence and it is expected this will require another week.

The machines in connection with the ice plant are all in place and are ready to be turned on. B. Wren and P. Lecœur are in charge of the installation.

The work on the concrete seats has been completed and the masons are rushing the plastering work along so that it will be completed before the frosty weather.

The hockey fans who enjoy a good smoke during the intermission at the hockey games will have two rooms for that purpose, and they are located at the west end of the rink. The public dressing rooms will also be for smoking. There will be no danger of fire in the new rink, which is absolutely fireproof.

If you apply a thin coating of colorless lacquer such as you can get at any paint shop to your brass candlesticks and ornaments they will not tarnish and will need slight attention from you on cleaning day.

A Canadian Holstein breeder is credited by Hoard's Dairyman with the statement: "We do a lot of talking about the 4,000-pound cow, but we should get after the 4,000-pound man."
