Northern Ontario Development.
 The constant development which
 is taking place in the mining areas

 trains from Toronto via North Bay.
 Standard sleeping cars and coaches
 are operated between Toronto, En-

 necting with trains for all points in
 that district, including Larder Lake
 and South Lorrain branches.

This territory is also served from
 the East and West by the "Continental
 Limited" Canadian National's
 crack transcontinental train.

Is Your Shadow IN THE WAY?

A HOME half lighted is like a home half warm—poor econ-
 omy at the high cost of comfort. Particularly when
 light costs so little.

Shadows, for example, are needless annoyances. White or
 frosted Edison Mazda Lamps, in port-
 able floor or table lamps, overcome this
 condition, and greatly increase the
 cheerfulness of your rooms.

To obtain the best results, choose
 lamps with wide shades that throw the
 light upward as well as downward. In
 ceiling fixtures of pendant or shower
 type, put 50-watt white or frosted
 Edison Mazda Lamps, or 75-watt
 lamps if the fixture is a translucent bowl.
