Waterproofing Blueprints

To overcome the annoyance of having blueprints spotted by rain or moisture, the following simple plan is useful: Melt two or three cakes of refined paraffin, then immerse a number of absorbent cloths in the wax.

Effective Post Puller

The post-pulling device shown in the illustration is the simplest and quickest-acting he has ever seen, says a farmer. It consists of a discarded sleigh runner, provided with a clevis, chain and a doubletree so that a team of horses can be hitched on, and a wooden lever with a sharp steel point, bolted to the runner as shown.

U. S. Tire Output Increasing

While the combined production of rubber tires for automobiles and motorcycles in the principal countries of the world amounts to 54,500,000, more than four-fifths are consumed by vehicles in the United States.

Coasting on side hills and jumping either with or without staves are possible with the skates because of the ease with which they roll over rough country.
