## PROTECTION IS ASKED AT FINDLEY CROSSING

**County Council Asks the C.N.R. to Place Light and Bell for Warning.**

When the county council resumed its sessions on Thursday afternoon at two o'clock, it was announced that the good roads committee had held a conference with the county solicitor with the result that the committee was able to make a report in connection with the new siding at Findley station over which there was so much discussion on Wednesday.

After going into the case very carefully, the committee decided that the railway company be asked to place a wig-wag light and bell at this crossing to warn the people who have to cross the track. The C.N.R. will also be asked not to allow a train to remain on the siding within three hundred and fifty feet to the east or two hundred feet west, as it will keep the travelling public from getting a look down the track.

When the report was moved and seconded, it was adopted by the council, and J. M. Farrell, county solicitor, and R. J. Fair, county road superintendent, will take the matter up with the railway company.

A vote of thanks was tendered by the good roads committee to Reeve Samuel Jamieson, the chairman, who has done such faithful work during the year. Mr. Jamieson in replying stated that it was a pleasure to work with the different members of the committee.

The county property committee recommended that the tenders for the fall be awarded to the following: Bread at four cents a pound to James Lackie; meat, E. J. Metcalfe; groceries, John Gilbert.

A vote of thanks was tendered to David Barr, chairman of property who had carried on the duties so well during the year.

The council went on record in being in favor of the resolution passed by the Lincoln county council, which strongly objects to the provincial government cancelling the supplementary grants to the county schools. The councillors stated that this grant made it possible for the school getting better qualified teachers and for that reason they thought it should be continued.

ing by the Kenmore girls, who with their winsomeness and wonderful talent, won the hearts of their audience, as the evening progressed. Their programme was varied and each member was of exceptional merit, and again the general public thank the Ladies' Citizen League for a real treat.

### NAPANEE ENTERTAINMENT.

Given By Anglican Woman's Auxiliary Thursday Evening.

Napanee, Nov. 21.—The annual entertainment of the Napanee branch of the Anglican Woman's Auxiliary was held last night in the Sunday school hall of the Church of St. Mary Magdalene, the vicar, Rev. J. H. H. Coleman, presiding.

Aforetime the annual event of the Woman's Auxiliary was known as "The Pious Social," but "them days has gone forever." In former times everyone attending had to bring a pound of groceries, now the contribution has to be in cash. The silver collection at the door last night was a substantial one and will greatly help the ladies in their good work.

An excellent programme was provided by Walter's orchestra; Mrs. Powell, elocutionist; Miss Hilda McGreer, soprano; Mr. Wade, vocal soloist, and piano accompanist; and lastly, but by no means least, a splendid and most interesting lecture illustrated by fine views was given by W. S. Herrington, K.C.

The subject of Mr. Herrington's lecture was a trip he enjoyed during the past summer and his itinerary included Quebec, the voyage across the ocean, London, and scenes of historic buildings, churches, cathedrals, there and elsewhere in England. Also in France, Belgium and Holland.

### A STRIKING COSTUME

A striking combination of plaid and plain material is the secret of this costume's success. The front is absolutely plain. The plaid material is blue with overchecks of gray chevron. The plain portion is blue satin. The hat is most interesting, with its wide chin strap and studied plainness.

The roly polys of St. Pat's team this year are Jack Adams, Reg Noble, Bert Corbeau, and, strange to say, "Shrimp" Andrews. They all look fat enough to kill. Adams says

that he has already taken four inches and twelve pounds off his equator by workouts in the west. If he did he had to use a periscope to see the puck the first time he took to the ice. But just the same John is going strong. Noble was never so big, but he, too, is going strong. Corbeau is naturally burly. He looks a lot better since his operation.
