149-157 BROCK STREET

## WAIVE DECLARATIONS ON CHRISTMAS GIFTS

Uncle Sam is Acting More Friendly With Canada In This Christmas Season.

Customs declarations on Christmas parcels going to United States are being semi-officially waived. It is understood that the U. S. Customs Department will not insist upon declarations until after Christmas, and that there will be no concern about duty except on valuable gifts.

Thus Canadian senders will be relieved of the necessity of publicly declaring the value of a gift entering the United States.

Recently the Whig had a strong editorial on this matter, and it suggested that the new Republican Government at Washington should act more friendly towards Canada in regard to Christmas gifts going from here across the border.

### THEY MET AND FELL.

Story of a Young Man and Woman Who Slipped.

An ice-coated sidewalk was the underlying cause of a meeting that was anything but conventional yesterday afternoon. He was coming from Barrie street, and she from Clergy. Surprise and pleasure lighted two pair of eyes as they neared and recognized each other.

Then she began to slip. The surprise remained, but the pleasure turned to terror. They came together with a bump, and both set down on the sidewalk. "Well, how are you?" she asked. "I haven't seen you for ages." "I'm fine," he replied. "Surely is good to see you." Then they picked themselves up.

### Presentation to Foreman.

A most enjoyable event was observed at the Whig office on Friday afternoon when Mr. P. H. Burke, composing room foreman, was presented with an address and a handsome club bag by members of the editorial, composing room and stereotyping staff. The address was read by J. V. Garrigan and the presentation made by James Breen. Mr. Burke made a happy reply.

### BOOKS

"THE UNKNOWN QUANTITY."

By Ethel M. Dell. Ryerson Press, Toronto. Price \$2.

A new book by Ethel M. Dell never fails to arouse interest among the admirers of the works of this popular novelist, and in "The Unknown Quantity," they will find one of the most interesting and pleasing of her books. It is free from the depressing scenes she is fond of in which someone is fogging someone else, which in the opinion of many people mar some of her earlier novels. This does not mean that there are not plenty of thrills in "The Unknown Quantity." It is an interesting story told in an interesting way of a young English girl, the idolized daughter of a supposedly wealthy banker, whose beauty, charm and riches have provided her with a train of lovers. Advised by her friend, Lady Varleigh, to marry, she chooses Lord Conister and then the blow falls, the bank fails and her father suicides having been responsible for the failure. Jeanette gives up the money he settled on her and goes into the world to earn her living, giving up her marriage which was hardly one of love.

In her struggle she is followed by her one faithful lover and in the end finds through her response to his true love, which she floated in the days of her prosperity, the unknown quantity, happiness.

The General Hospital needs your assistance. Send in your Christmas contribution now.

Mr. and Mrs. John Edwards will celebrate the sixtieth anniversary of their marriage on Dec. 19th at their home in Keena.

Bankrupt stock sale, The Club, three doors below Grand Opera House.
