500 lb. Choice Round Steaks 18c., 22c., 25c.

STILL SPECULATING REGARDING FERGUSON

Will the Ontario Premier resign?—Hon. W. F. Nickle a Possible Successor.

Toronto, Jan. 13.—There is considerable speculation about Queen's Park today as to the possible correctness of the rumor to the effect that for reasons of ill-health Premier Ferguson will be handing in his resignation at the close of the pending session of the legislature.

Opinion about the corridors of the parliament buildings leans toward the probable truth of these reports. Hon. George F. Henry and Hon. W. F. Nickle are mentioned as the only two in the running providing such a vacancy should develop. The appointment of the premier's successor would be put through in cabinet council on a vote of his ministers, probably following a party caucus.

Premier Ferguson refuses to make any further statement.

Rotary Club Activities.

Mr. H. S. Ross, K.C., D.C.L., Montreal, will be the speaker at the weekly luncheon of the Kingston Rotary club at the British-American hotel on Friday at noon. Rotarian Roy Ward has been appointed chairman of the Rotary ball, to be held at the city hall on January 23rd.

The members of the Rotary club are greatly pleased over the manner in which the citizens are responding to the appeal for funds for the shoe and stocking fund. From present indications it looks as if the club will be able to go over the top in supplying shoes and stockings for the underprivileged children.

ANNOUNCES DISCOVERY.

Regarding Pernicious Anemia—Brockville Doctor's Find.

Brockville, Jan. 13.—Conclusions of possibly far-reaching significance to the world of medicine which have been arrived at by Dr. Beaumont S. Cornell, a young physician of this town, as a sequel to prolonged research both in Brockville and in Toronto, into the cause of pernicious anemia, may have a profound bearing upon future scientific investigations of the same type, and may lead to the cause of this wasting, incurable disease being definitely established.

Dr. Cornell's researches have resulted in peculiarly suggestive information being gained in this connection, and support the contention that the disease is caused by a germ known as bacillus welchii.

Dr. Cornell has practiced here since 1920, and comes from the neighboring Village of Athens.

FRONTENAC LAW ASSOCIATION.

Favors uniting the City and County Registry Offices.

At the annual meeting of the Frontenac Law Association, held at the court house on Monday afternoon, Mr. J. B. Walkem, K.C., was re-elected president. The other officers elected were: Mr. Francis King, K.C., vice-president; Mr. T. M. Asselstine, secretary-treasurer.

There are 2,635 books in the library valued at \$7,266. W. C. Hodgins was accepted as a new member of the society.

The society recommended that if there is a vacancy in the city or county registry office, the two offices should be united under one head.

Baptist Young People's Union.

The installation of the officers of the Baptist Young People's Union took place in the First Baptist church on Monday evening. The honorary president, Rev. Douglas Laing, referred to the interesting fact that this was the thirty-fifth successive year of the B.Y.P.U., making it, he believed, the oldest young people's society with continuous record in the city. The officers elected were: Honorary president, Rev. D. Laing; president, J. F. Twiss; vice-president, Miss Amy Tikman; second vice-president, Ivan Sinclair; secretary, Kenneth Pickering; treasurer, Miss B. Brown; pianist, Miss Mabel Oshee; assistant pianist, Miss Florence Galsbury; auditor, M. B. White; ushers, Jack Dennison and Gordon Clarke.

Canada's Health Is Good.

Ottawa, Jan. 13.—According to statistical reports which involve a million and a half of the industrial population received for the month of November last, the health situation in Canada is very satisfactory, the death rate being 7.6 per thousand, which is a remarkably low rate for that period of the year. The considerable decline since October is due largely to lower mortality from intestinal diseases, tuberculosis, chronic nephritis, cerebral hemorrhage and cancer. The combined mortality from influenza, pneumonia and other respiratory diseases, is about the same as in the preceding month.

British Trade Returns.

London, Jan. 13.—British trade returns for 1924 show striking increases in both imports and exports compared with former years. Nevertheless, they elicit mournful comments from the press because, while the imports show an expansion of 184,000,000 pounds, exports increased less than 50,000,000 pounds, and the total excess of imports over exports reached 245,000,000 pounds.

Kingston Rotary Club Shoe and Stocking Fund

The following additional subscriptions for the Rotary Club's Shoe and Stocking fund were reported on Tuesday:

- \$384 previously acknowledged.
\$10—Society Children of Mary.
\$5—A Friend.
\$2—The Misses Nicol.
\$2—T. G. Bishop, Dr. W. G. Anglin, W. R. Allen, "Billy."
\$1—Mrs. Herbert Robinson.

THE CHORAL SOCIETY

Which is to Sing "The Ancient Mariner" on Wednesday in Grant Hall.

In view of the public interest in the approaching concert by the Kingston Choral Society, it may be appropriate to recall something of the history of this organization. The Choral Society has become one of the established institutions of the city in a very short period of time; for it has officially existed for less than three years. In fact the society came into existence almost unconsciously, passing through the stage of a scarcely organized group of singers to its present form only as such further organization became a matter of practical necessity.

Of all forms of music, choral singing has perhaps the most universal appeal. It is true that many races use no harmony with their melodies; but to the present-day white man singing in parts is an amusement both spontaneous and satisfying. Children sing tunes in thirds for lack of more sophisticated harmony; and untrained songsters of more mature age, under stress of emotion, emit horrible harmonies of the barber-shop variety more doleful than the complainings of several assorted saxophones. It is not surprising that, in a city such as Kingston, there should exist a sufficient number of persons, sharing this widespread taste for harmonizing, and willing to strive after something a little higher up in the musical scale than the primitive efforts above-mentioned.

To achieve results, however, something more was needed than the presence of these musically ambitious individuals scattered through the community. There was need of someone with capacity to bring these individuals together in intelligent effort towards a suitable end; and for this the Choral Society has to thank Mrs. A. R. B. Williamson, the founder of the organization and present honorary president. Mrs. Williamson has been, by ability and training, and by her connection with the musical life of Kingston, peculiarly fitted to gather together the forces awaiting her guidance, and to the skill and energy that she gave to the work is due much of the efficiency that the choir exhibits today.

About the original nucleus has sprung up a strong organization, counting among its members to a remarkable extent leading musicians of Kingston, not to mention rural adherents from distant regions who count blizzards no obstacle on rehearsal nights. This organization has given to the public a series of concerts of exceptionally high quality, beginning with the performance of Mendelssohn's "Elijah" two years ago, and including a rendering of Handel's "Messiah" last spring, two heavy pieces of work.

The programme offered for next Wednesday in Grant Hall is one of unusual variety and interest. It includes a number of part-songs representing the greatest composers from Mendelssohn to the present day, and also the setting of the "Ancient Mariner" by Barnett. Singers sometimes ask their audiences to put up with very poor libretti, on the ground that only the tune matters; but the Choral Society needs to offer no apologies for the ancient mariner, which is surely one of the outstanding pieces of imaginative poetry in the English language. And the familiar details of the story from the Antarctic ice to the "silent sea" of the tropics, with the spirit voices and the rising of the dead sailors, are all vividly painted in the music. Some of the choruses especially are considered notable examples of fine dramatic effect.

The Choral Society is under the leadership of Captain Alfred Light, an honorary conductor, whose skill and experience have enabled him also to undertake the training of the special orchestra accompanying the choir in its performances.

A farewell message from the crew of the ill-fated French vessel Jeanne D'Arc, stating that their craft was rapidly sinking without hope of rescue off the Cornish coast, has been washed up in a bottle near Boulogne.

Howard Carter, Egyptologist, has reached an agreement with the Egyptian government under which work will be resumed on the tomb of Pharaoh Tut-ankh-amen.

Mrs. W. W. Hay, Vancouver, has applied for a certificate as captain of a vessel.

DAILY MEMORANDUM. Band at Palace rink to-night. Eucure, Hotel Dieu, Wednesday evening, 3 p.m. L.O.L. No. 6 eucure and dance, Orange hall, to-night, at eight o'clock.
