GAS IN THE STOMACH IS DANGEROUS
Recommends Daily Use of Magnesia To Overcome Trouble Caused by Fermentation of Food and Acid Indigestion

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the gas, which has a neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloot right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Wiped Out By Fire.
Leslie Memorial Hall, the parish hall of St. James Anglican church, Kemptville, and one of the finest in the diocese, is a complete wreck, as a result of fire. Leslie Memorial Hall was erected in 1907, in memory of the late Robert Leslie, the first Sunday school superintendent of St. James' church. De Luxe Travel to California.
Modern travel leaves little to be desired in comfort and luxury. The most recent innovation is the introduction of Lady's Maid Service on the California Limited, the Los Angeles Limited, and the San Francisco Overland Limited, operating daily between Chicago, Los Angeles and San Francisco over their various routes. It has also been announced that the California Limited has been equipped with new all-steel drawing room compartment sleeping cars with specially designed ladies' lounge. Such improved services signify the strides being made to satisfy every conceivable desire of the long distance traveller.

These famous trains are already associated by connections with the Canadian National double track system to Chicago and the trip from Toronto to Los Angeles or San Francisco is thus made one of unequalled

pleasure and satisfaction throughout. Full information, tickets and personal service in arranging reservations may be obtained from J. P. Hanley, City Passenger and Ticket Agent, Canadian National Bldg., Kingston, Ont. Phone 99 or 1433.

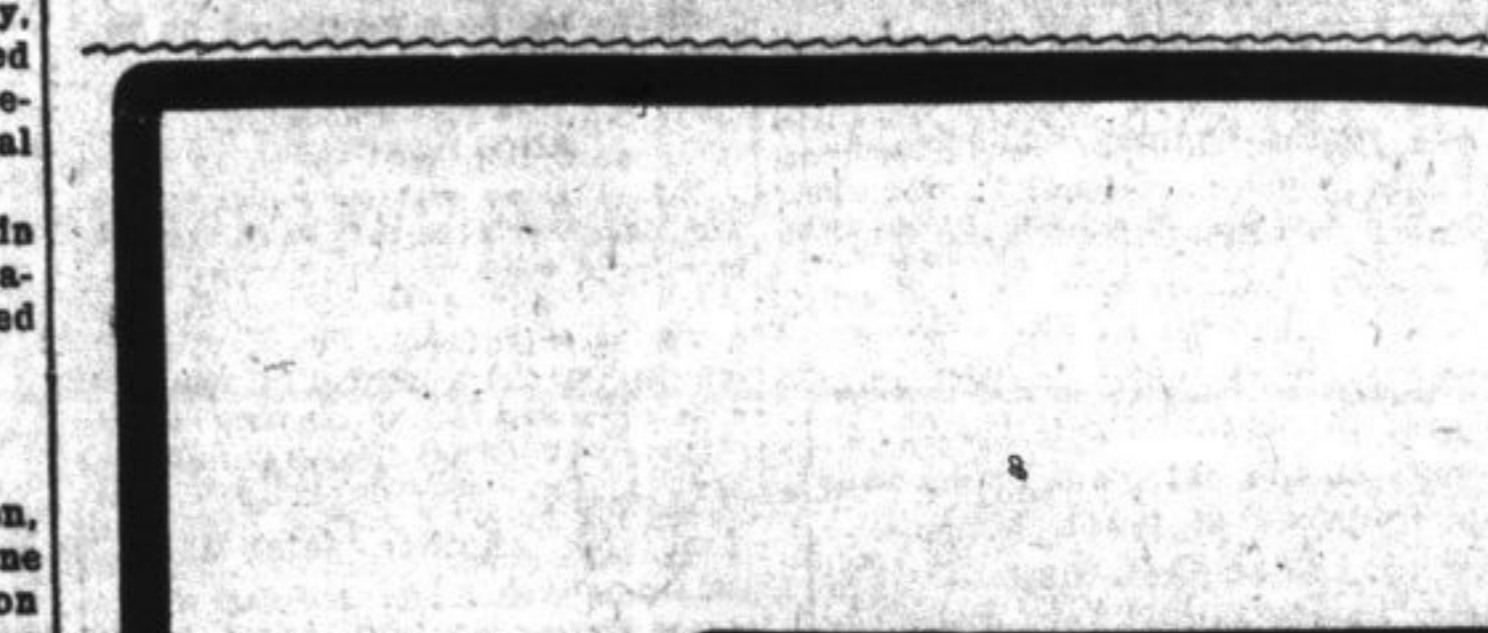

Kingston Excites Admiration.
The record of Kingston will excite the admiration of city treasurers everywhere says the Toronto Globe. Out of every hundred dollars of the taxroll \$98.80 was obtained there. In Toronto \$83.54 out of every \$100 was collected, which is better than during 1923, when the figure stood at \$82.45. Apparently the size of the city is not altogether responsible for the number of delinquents, though of course it will have some effect. In the larger places it is more difficult to trace the people who owe money to the city. For instance, in Toronto, owing to the time which elapsed between making the assessment and attempting the collection, so many changes of location took place that it was impossible to locate about 4,000 delinquents.

Camille Vanier, a French-Canadian, aged sixty-three years, of Parkinson township, was sentenced to two years in penitentiary for attempted suicide.

Hon. James Murdoch announces that municipalities can expect no direct assistance from Federal government in meeting unemployment situations. Hamilton must pay \$225,000 to recover \$5,000,000 worth of bonds deposited with Hydro.
