Knox are spending a few days at Peterboro. Freddie Hill entertained a number of his young friends on Saturday afternoon.

Dissolves completely

Makes a rich "soap-sudsy" solution, soaks dirt out—no more hard rubbing.

Rinses out thoroughly—leaves clothes white—no bits of soap left sticking to garments to turn yellow under the iron.

Rinso is the only soap you need on wash-day—it is perfect for soaking—for boiling—for washing-machines.

"Up Top"

UPON the hill-top your vision grows. For miles and miles you see the work of man and nature. Down in the valley your view is limited by the hills, by your neighbor's home—by the store across the way.

This newspaper—properly used—will guide you to the hill-top. Read it and your vision is enlarged. You get a bird's-eye view of world events. You glimpse all the doings of the days.

Fail to use it, and your view is limited to the things around home. You remain in ignorance, not only of events here and abroad, but of much that concerns you even more vitally—news of the very things that have to do with your personal, every-day life.

Someone might be selling a new, better and more economical food; or a utensil that would add immeasurably to your comfort and well-being; or some better material for shoes or clothing—but you would never know, because of your restricted view.

You may read every line of the news, but if you overlook the advertising, you are still living in the valley. You remain uninformed about many things you ought to know in order to live a happy, useful, profitable life in this age of progress.

Read the advertisements—and know everything that goes on in the market-place.

Advertisements bring the wares of the world to your doorstep for your inspection.
