If Your Child's Eyes Are Abnormal

The child is handicapped. And he will remain handicapped as long as the eyes are in that condition. Every child has a right to demand of somebody that his eyes should not prevent his progress. Thousands of children are every day studying with imperfect eyes. Parents should give this subject the thought it deserves.

HAD BAD SPELLS WITH HER HEART

Mrs. C. Martin, R.R. No. 2, Orillia, Ont., writes: - "I have been troubled with my heart for a long time and very often had bad spells with it. I would take fainting spells, and my husband had to have somebody to stay with me all the time. He got me everything he could think of to see if they would do me any good, but nothing seemed to help me. One day a friend was in to see me and advised me to try

Absorbine was first discovered by a very close student of the horse, W. F. Young, and by him, devoted to its cause. Its very exceptional benefits, however, were promptly seized upon for the human race and, in a milder form, the preparation is sold all over the continent today as Absorbine Jr. It is used for men, women and children everywhere as a positive germicide—a germ killer and a prompt and certain healer of all hurts. It is useful not only for all the purposes served by ordinary liniments and embrocations, but as a mouth-wash and for anything else where until you need it. Get it in the house today. \$1.25 at your druggist's.

"Child's Eyelids Inflamed Stuck Together and Bled"

Mr. E. P. Kimball, Entwhistle, Alta., writes:
"Our little girl from birth was troubled with inflamed eyelids and in spite of several remedies, grew worse until at the age of sixteen months her eyes could not be opened after sleep vithout bleeding, a waxy discharge sticking the lids

together and adhering with great tenacity. The child's grandmothers were consulted by mail, and both responded with a little sample box of Dr. Chase's Ointment. These were used as directed, and lasted until we could obtain a further supply from Edmonton. Improvement was very marked from the first application. The waxy discharge was easier removed and did not reappear. Inflammation subsided and has not returned."
