Railway Conditions

ing feature of railway traffic for the first two months or the current year has been the increase in carloads of merchandise. For the nine morning prayer. Preacher, Rev. R. me everything he could think of to ment in loaded cars of that commo-

Allowing for a falling off of 16,-932 carloads of grain and grain products, and 4,663 carloads distributed among pulp and paper, lumber and miscellaneous, the increase in merchandise, live stock, coal, coke, pulpwood, other forest products and ore has been 38,342. The net improvement was 16,747 loaded cars. The gain of 1,832 carloads in the live stock class has been accompa-

nied by a general and substantial in-

crease in the market price of meats. This upward movement has been under way for three menths past. On the other hand, while the decline in the volume of grain moved has been large, there has been at the same time a marked advance in prices. A fair analysis of the traffic results thus far reported leads irresistibly to the conclusion that commercial conditions have materially improved throughout the whole country. This is proven by the fact that merchandise has been moving in larger volume in both the West and the East. For example, the gain in that class for the week ended Feb. 21st, as compared with last year, was 3.620 carloads, of which 3,055

movement in the raw material, due to the export situation. A gain of There are two theories, or con- 2.633 carloads of other forest proof strength in the construction field. The preliminary statement with respect to operating results by all Canadian railways in 1924 shows a decrease of \$29,986,902 in gross earnings. On the other hand, operating ex-The latter group finds a human penses were cut by \$28,297,469, toward which the Canadian National contributed \$13,467,255, and the Canadian Pacific \$11,781,564. That the railways have been driven to such drastic economies is not. all authorities are agreed, on the side of sound railroading; but there was As a matter of fact there were in no other way of keeping their heads above water.

> The first effect of these enforced retrenchments was a reduction in the number of employees from 157, .572 to 159,030. Of the number laid off the Canadian National accounted for 5,940 and the Canadian Pacific for 2,691. The cut in the payroll by all railways considered as group aggregated \$14,926,865 To that extent adverse railway conditions in 1924 reduced the purchasing power of the people

> Lowered receipts were the direct result of smaller traffic, in part due to the poor harvest in the North West. Freight slumped by 9,479.-622 tons. This shortened tonnage brought down ton-miles from 33,-933,180,568 to 30,407,690,912. Owing to the reduced volume of grain moved over the long haul, receipts per ton mile were advanced slightly

over the 1924 figures. decline in 1924. The number of round figures, the railways last year carried 10,000,000 fewer passengers than in 1920. This has been in large measure the result of automobile competition and railway executives insist that it is a fact which must be considered in connection with the fixing of freight rates.

The operating ratio was 85.57 whole story of the economic situation of the railways today as compared with pre-war times. Neverthe less, the outlook for the current

AND tell you not to expect more than a fair allowance on your old car when you trade it in on a New Studebaker.

We can't offer you an inflated price for your used car. But we can give you a supervalue in the New Studebaker! And what you gain in extra motor car performance, comfort, design and equipment will more than offset an extra one hundred or two hundred dollar allowance you may be able to get from the dealer selling just an automobile.

Studebaker prices are set at the bottom dollar. There is no provision for "allowances" and "rebates," to make the buyer believe he is getting something extra. Studebaker is giving the public greater value for every Canadian dollar invested than any other car on the market. That's a strong statement, perhaps, but we're ready and able to fully prove that it is true!

Before you buy, see the new Studebakers; compare them in every way with any other car you may be considering; and in particular, compare the prices:
