**CHARGE OF STEALING AT PITTSBURG DANCE**

Noah Wood Appears Before County Magistrate—His Father Testifies Against Him.

Quite a sensation developed on Monday afternoon in connection with the hearing of the case of Noah Wood, aged forty-three years, of the township of Pittsburg who is charged with theft. The father entered the witness box and gave very damaging evidence against his son. After hearing four hours of evidence, County Magistrate Bradshaw remanded the accused to jail for one week, when he will appear and receive his sentence.

For about half an hour during the taking of the evidence, things were pretty lively. Mrs. Minnie Foxwell, Pittsburg township, who charged Wood with stealing a watch and knife, came very close to being committed to jail for contempt of court. T. J. Rigney, K.C., crown attorney, who conducted the prosecution, was taking the evidence of Mrs. Foxwell. Instead of starting at the first of her story in connection with the theft she commenced at the last, and when Mr. Rigney suggested to her that it would be better for all parties concerned if she would tell the story in the correct order, she got very excited and talked so freely that Mr. Rigney informed her that if she did not sit down and tell her story the way he wanted her to do, he would have her committed to jail on the charge of contempt of court. The witness jumped up out of the chair in which she was sitting and suggested to Mr. Rigney that she would withdraw her case. She made for the door of the room but Provincial Constable McLachlan stepped in the way of the witness and advised her to go and sit down, which she did. Mrs. Foxwell took the advice of Mr. Rigney and went ahead with her story as required.

It is claimed that on the night of February 20th, Noah Wood was attending a dance and card party held at the home of Mrs. Foxwell, and when leaving he carried away one watch, one knife, one pullover sweater three men's caps, two pair of men's gloves, and one pair of men's rubbers.

Mrs. Foxwell during the course of her evidence stated that the knife which was an ordinary butcher knife, and the watch were her property, while the other goods belonged to some of the men who were attending the dance. It is expected that the men who own the goods reported to have been stolen will instruct the crown to conduct prosecution against Wood on at least three more charges.

Mrs. Foxwell stated that about seventy attended the dance on the night in question. After the majority of the party had gone home about five o'clock in the morning, it was discovered that the above list of goods had been taken. The watch had been taken off the secretary which had been pushed against the wall, while the knife was taken from the table.

Mrs. Foxwell stated that she had secured a search warrant, and in company with Provincial Constable McLachlan had visited the home of Wood on Saturday evening last. The prisoner had informed her that he would be able to return the goods by Tuesday evening, and it was decided to give him a chance to return them, but the constable had reconsidered his suggestion and returned to the home the second time on Saturday night and brought the prisoner to Kingston where he was placed in the county jail. Mrs. Foxwell stated that Wood had told her that he had taken the rubbers by mistake and would return them. She said she thought he had been drinking.

The father of the prisoner when called upon to give evidence, did not make things easier for his son. He said that he and his wife had looked in a valise belonging to the son which had been left on the second floor of the home and he saw the knife and two of the caps. He stated that his son had told him that he had swiped two caps at the dance and offered him one.

The court was then adjourned for about ten minutes and when it was resumed A. E. Day, who acted for the prisoner, stated that Mr. Wood had decided to tell the court all he knew about the case, which he did. The prisoner told the story of the night in question from the time that he left his home until he arrived back about 5.30 in the morning. He stated that he had been drinking during the evening and was not accountable for his actions. He said that he had taken the rubbers by mistake and had intended to take them back. When asked about the watch, he stated that another party had taken the watch and given it to him, and he would return the same. Provincial Officer McLachlan, who made the arrest on Saturday evening last, corroborated the evidence of Mrs. Foxwell as to the conversation which took place among the three people. He said that he had first thought of giving the prisoner a chance to return the goods to his office on Sunday evening, but he had reconsidered his action and returned to the home of Wood and placed him under arrest.

In the Sons of England hall on Monday evening, a combined anniversary banquet by Daughters and Maids of the Empire and the Sons of England took place. It was the seventeenth anniversary of the Daughters and Maids of the Empire and the fortieth anniversary of the Sons of England.

The banquet, which was prepared by the members of the ladies organization, was very fine, and about two hundred guests sat down at seven o'clock. A deputation consisting of about twenty members of the Cambria Lodge of Gananogue was present for the event.

**DR. PHILIP I. NASH.**

Becomes Member of the American College of Physicians.

Dr. Philip I. Nash, one of Coney Island's leading physicians and also one of its most active civic workers has been in Washington, D.C., all week, where he was made a member of the American College of Physicians.

This is a distinctive honor in the medical world, and only comes to those of the profession who qualify after intensive post graduate study. There are 153,000 physicians in the United States, and of this entire number only 800 are members of the American College of Physicians.

Dr. Nash has a reputation in the entire city as being an expert diagnostician.

While in Washington the doctor stopped at the new Mayflower hotel, \$13,500,000 structure. The convention of the American College of Physicians took place in the Walter Reed hospital where Dr. Nash was given his final degree. The doctor left for Washington on Sunday last.

Dr. Nash in addition to his practice finds time to attend to many matters affecting the welfare of the island. He is the man who guided the activities of the committee that saved Coney Island \$2,600,000.00 in assessments last fall. He was one of the charter members of the Coney Island Chamber of Commerce, the organization of which he is now president. For a number of years he has been a member of the board of directors of the Bank of Coney Island.

With the doctor are Mr. and Mrs. Philip Baas, Dr. and Mrs. William Schroeder and former State Senator and Mrs. Kenneth F. Sutherland. The Schroeders and the Sutherlands left for the Capitol Wednesday evening to be with Dr. Nash. Mr. and Mrs. Baas have been in Washington all week.

**WILL MAKE A SURVEY OF CITY BUILDINGS**  
And Report on Work to be Undertaken and Estimate of Cost.

At a meeting of the civic property committee held on Monday afternoon, it was decided to have City Engineer Dick and Ald. McCartney make a complete survey of the city buildings and make a report on the repairs and alterations absolutely necessary and at the same time secure an estimate of the cost of the work.

The committee is considering the putting in of a tile floor for the ground floor of the city buildings, and an estimate of this cost will also be secured.

The chairman of the committee, Ald. Laturney, stated that the matter of repairs to the city buildings was a most important one. The committee had no funds in the budget to cover this expenditure and the proposition which came from the finance committee was that debentures be issued covering a period of years, and that the work be proceeded with as soon as possible.

The chairman, Ald. Laturney presided and also present were Mayor Angrove and Alds. Ash and Joyce.
