Telegrams Were Falsehoods.

New York, April 3.—Charles H. Duell, cross-examined yesterday as a witness in his suit for an injunction to compel Lillian Gish, motion picture star, to complete her contract with him, found himself forced into conflicting testimony and into an admission that he had sent telegrams to Miss Gish on November 27th, 1924, containing "absolute falsehoods."

Sir William Petersen will come to Ottawa in about a week in connection with ocean freight agreement with the Government.

Soviet of Moscow denies that Trotsky has fled from the Caucasus.

Indian chief in western States is charged with burying girl alive.

SHORT WAVE SET

Amateurs who have had to make their own receivers, if they wanted to listen in on short waves below the broadcasting band, may now exist in a manufactured set, for their benefit.

A. H. Grebe, the radio inventor and manufacturer, is shown here with a short wave set he has designed for amateur use.

**You Need a Bicycle**  
for Business, Pleasure and Health

FROM early morn till late at night the bicycle plays an important part in our daily life.

It does its work so quietly, so smoothly, so efficiently, we scarcely realize its presence.

**Ride to Work**

Throngs of workmen cycle to and from work every day, saving time, car fare and the discomfort of riding in packed street cars or of walking long distances.

Multitudes of happy children—teachers, too—ride bicycles to school. And what in the world would the Boy Scouts do without bicycles?

**Economical Deliveries**

All day long messenger boys—and boys making light deliveries—fit by on bicycles.

Occasionally a plumber pedals by on his wheel on a hurry call—perhaps, a leaking pipe!

A carpenter with his kit wheels from one job to another. The collector and the insurance agent glide along to make calls—many of them not near a car line.

**Pleasure and Emergencies**

Out in the country, the city man rides for a day's fishing with his rod tied on his wheel. Coming towards him a farmer's boy wheels hurriedly to the city to get a spare part for a farm machine that has broken down.

Away down in California, Mary Pickford and Douglas Fairbanks ride bicycles for pleasure and to keep fit. An example that other men and women could follow with benefit to their health.

**More People Riding**

More people are riding bicycles today than for years past. The paved roads are so smooth, so clean, and so easy to ride on, they are creating new riders by the thousands.

Just climb on a C. C. M. yourself and see how exhilarating it is to ride a bicycle.

See how easily it glides along, thanks to the C. C. M. Triplex Hanger—the three-piece hanger that gives the C. C. M. so much speed—and pep—and power.

Then press back on your pedals and see how quickly and smoothly the Hercules Coaster Brake acts.

Note how strong and rigid the frame is. It's of English Seam-

less Tubing, strongly reinforced.

Look at the brilliant, lustrous enamel—durable and lasting. And the glistening nickel. It's done over copper so it won't rust.

Glimpse the new Gibson Pedal, too—so light and so strong. Its silvery frame is of aluminum and cannot rust.

Stand back and look at the C. C. M.'s trim, graceful, fancy lines. A beauty! A bicycle anyone would be proud of. And one that will give years and years of faithful service.

You need a bicycle—most everybody does.

This year C.C.M. prices have again been reduced. They're now \$20 to \$25 less than the after-war "peak" prices. The nearest C.C.M. dealer is waiting to show you the latest models.

**IN THE SPRING—**

A young lady's fancy turns to Easter styles. Here goes Miss Natalie Hammond, daughter of John Hays Hammond, attired in the new season's mode. A real vest and cane give finish to the mannish effect.

**TWO POUNDS OF RAIMENT.**

Will Be All Fashionable Women Will Require This Summer.

New York, April 2.—Woman's growing emancipation from clothes will reach the apex this summer when she follows the dictates of fashion exactly two pounds of raiment will clothe her. And half the weight will be in shoes.

Such is the edict set by a representative of a famous New York silk house, attending the Fashion Art League of America convention here, who sketched and weighed the sixteen summer ensemble as follows:

One step-in, two ounces; one brassiere, one ounce; one pair of sheer hose, two ounces; gowns, six ounces; hat, five ounces; shoes, one pound. Sheer fabrics, indestructible voiles, chiffons and georgettes will be worn on all occasions, and not just for dress affairs. Likewise the knee will be visible. Dresses are to be just below the knee, but not meant to cover it. When the fashionable woman sits down her knees will be well in the foreground of the picture, it was said.

**F. Simmons Improving.**

Chaffey's Locks, March 31.—The changeable weather, with many recent rain showers have hindered the yield of maple syrup. Mrs. W. E. Emmons and children have moved to Kingston. T. Simmons and M. E. Droyer are spending a few days visiting relatives at Kingston.

Fred Simmons is now able to sit up a few hours each day after a lengthy illness. J. Best is moving from Crosby to the George Kerr farm, Clear Lake. The trappers are busy these days.

A pinch of bicarbonate of soda hastens the cooking of vegetables but does not injure the flavor or appearance.

Russian prince arrives at New York seeking to recover Rembrandts.

**SIXTEEN-CENT FARE.**

First Fleet of 60 Taxis Placed on Streets of Buffalo.

Buffalo, April 3.—Sixteen-cent fare taxis were operating on the streets of Buffalo yesterday under a transportation emergency order issued by Mayor Frank X. Schwab. The mayor said 60 machines were in the taxi fleet released today, with more to be added later.

The action was taken by the mayor on the grounds that an eight-cent fare recently granted the international railway company by the public service commission had not resulted in improved service on the company's city lines.

For first time in decade, gold coinage has appeared at Johannesburg, South Africa.

**"It's easy to keep enamel glistening white this way"**

— says Mrs. Experience who has long ago made her choice in soap

"My! Sunlight really is wonderful for cleaning these bathroom fixtures. It makes them spotless and shifting in almost no time.

"The secret, of course, is the pure, cleansing lather of Sunlight. Sunlight simply dissolves dirt and grease so that they just rinse away.

"I wash the linoleum and paint-work with Sunlight, too, because it's less work the Sunlight way.

"After all, you can't beat a pure, honest soap for economical cleaning, so give me Sunlight—and nothing else—every time. I always use it for the dishes because Sunlight is so easy on the hands. It is made by the largest soap-makers in the world, Lever Brothers Limited."

**Sunlight Soap**
