The New Cunarders

**AURANIA
ASCANIA
ALAUNIA**

These palatial liners, another Cunard achievement, have been added to the famous Cunard Canadian fleet which brings the pleasures of "travel de luxe" within the reach of all.

Like the Auronia and Antonia, they are "Cabin Ships," carrying only Cabin and Third Class passengers.

Among the advanced conveniences offered are delightful private suites, beautiful bedrooms, and an unusually large number of two-berth staterooms.

Their public rooms embrace a Venetian Palace Smoking room, one of the most unique and charming of the kind afloat, a Long Gallery in fascinating design of oak panelling, a delightful Winter Garden, beautifully paneled in figured fiddle-back systems, a Peter Pan Nursery for the children, Gymnasium located on the boat deck, Lounges, Writing rooms, Library, magnificent Drawing room, perfected systems of heating and ventilation under the control of passengers, and every other modern equipment conducive to comfortable and pleasant ocean travel.

Add to the above features, the enjoyment and educational interest of the St. Lawrence River trip and it is easy to appreciate that a voyage via the Cunard Canadian Route is a perfect pleasure cruise.

Ask your local steamship agent for booklets, and for information about the St. Lawrence Route, or apply to—

- Yellow Hawaiian bird.
- Part of the foot.
- Inhabitant of the city.
- Simpleton.
- Pink meat salt-water fish that comes to fresh water at spawning time.
- Printer's measure.

Latex-tated Web Cord Tires for every car

ONLY the advent of Balloon Tires can compare in importance to the development of the Latex Process for building cord tires.

This process—an exclusive feature of Dominion Tires in Canada—is used to produce Dominion Royal Cord Balloon Tires and Dominion Royal Cords.

The LATEX-TREATED WEB CORD process makes the strongest and most flexible tire in the world, a tire every car should have.

By this process each cord is saturated, surrounded and bound to its neighbour by Latex, the purest, cleanest and toughest rubber you can use. This does away with cross-treads and gives a smoother, stronger, more flexible fabric and one that has the power to resist internal friction.

Dominion Royal Cord Tire is the industry's leading one. Its LATEX-TREATED WEB CORD process gives more miles for the money and unequalled comfort, wear and all-round service.

Dominion Tires are GOOD Tires.
