Princess Street

**FROM THE OUTSIDE LOOKING IN**

The newly-formed Softball League is slated to meet at the Y. M. C. A. at 7 o'clock this evening and it is thought that there will be several additions to the already long list of entries. It is likely that the officers will be chosen to-night and a definite start made towards the establishment of softball in the city for the season.

The Central Ontario League club executive meets to-night and several matters of importance are slated. The executive is doing the utmost possible to be able to place a strong club on the field this summer and despite the fact that they are saying but little, they are going along and doing things. A little patience now by the fans will be rewarded later.

The residence rule for the O.H.A. is May 15th. Who is looking after Kingston for next winter? Nobody seems to know but it is a cinch that if Kingston is to have a team next winter with a couple or three new men on the lineup, now is the time to get busy, not next November.

The Circle Six club will be on the job this season and the kids might be found in the intermediate ranks instead of the junior. They are a classy bunch of junior ball players and should make a great showing.

The race is hot in the City Bowling League and the Earls, winners of the first half of the series are heading right along towards the championship. They look like the team to beat for the silverware.

Belleville Kiwanis bowlers are coming down here in the near future to take on the local Kiwanis bowlers. The Kingston teams lost in Belleville this week but hope to even matters when the return games are played here.

The Kingston Tennis Club is certainly one live organization. The courts at the old athletic grounds are being put into first-class condition and it is hoped to have double the membership of last season. Interest locally in tennis is certainly very high.

**RADIO**

**What You Get For The Last \$10**

YES, there are lower-priced bicycles than the C. C. M., but the C. C. M. is by far the cheapest in the long run.

That last \$10 you pay for a C. C. M. is the most important part of your purchase. It assures you—  
*extra years of easy riding,*  
*extra reserve strength,*  
*extra durable finish,*  
*fewer repairs,*  
*a higher selling value for your "used" C. C. M.*

For that last \$10, you get, among other things—the smooth-running Triplex Hanger, a frame of English Seamless Tubing, reinforced at the joints, extra coats of rich, lustrous enamel, rustproof nickelling over copper, the classy Gibson Pedal with rustproof aluminum frame, the new improved Hercules Brake, a bicycle with everyone of its 1761 parts made with watch-like accuracy, a bicycle "trued up" at the factory.

And, remember, five years from now your "used" C. C. M. will easily bring \$10 more than a five-year-old inferior machine—if the inferior machine has not already reached the scrap heap. You simply cannot lose by buying a C. C. M.

**Prices Are Again Reduced**  
They're now \$20 to \$25 less than the "peak" prices. This year C. C. M. bicycles are the biggest values since pre-war days.
