Lost Articles—And Articles That Stay Lost

There's a big difference between them!
And the distinction generally lies in the fact that some were advertised for in the Whig's A-B-C Classified columns—while the others were not.
Recovering lost articles through this paper's Lost and Found column is a comparatively simple and a very logical proceeding. It's based on common sense and the law of averages.
The first thought of nine out of ten people who find something of value is to watch the A-B-C. ads to find out the name of its owner. The sensible thing to do is to give these honest people a chance to return the property that has been found.
Next time YOU lose something—don't worry—call 243 and ask for an ad. taker.
