Three Solid Pages of Sports News Every Day

"The Globe" gives its readers a full, complete, reliable news service. This applies to sport, just as it does in every other Department of the Paper. We devote three Pages of each issue to sports—Baseball, Lacrosse, Golf, Bowling, Tennis, Racing, Soccer, Track and Field Sports, Yachting, Rowing, Paddling, Swimming—all the sports of the Season throughout Canada, the Province of Ontario particularly, all the year round.

By reading "The Globe" each morning, you get the sports news complete. We give the real news, COMPLETE, the full story, the full score. You get it first in "The Globe"—Golf Matches, Baseball, Bowling, Winter sports and all games which take place at night, such as Hockey, Curling, Boxing, etc.—the complete results.

"The Globe" believes in the old British principle of fair play, of non-partisan consideration for both sides of any contest, of encouragement to skill and courage, no matter upon which side local sympathies are placed.

"The Globe's" policy is to encourage frank, honest, open, manly sport, whether amateur or professional. The Sports Pages of "The Globe" uphold "The Globe's" standard of decency, good taste and good sense.

"The Globe" gives the Baseball scores in all the big leagues complete, together with a full story of the Toronto game. It gives the Inter-County baseball scores, as well as the International; the Ontario-Michigan League, as well as the National; the American Association, as well as the American League.

In the same thorough way, "The Globe" secures reports of Lacrosse, Soccer, Tennis and Lawn Bowling throughout the country, while, in season, Mike Rodden's reports and comments upon Rugby and Hockey are well known to every follower of those splendid games.

"The Globe" devotes a special department to Golf, with J. H. Evans in charge. "The Globe's" telegraph and cable services cover the big events occurring abroad—Racing, Boxing, Yachting, Rowing, Tennis, Golf, etc., etc.

Frederick Wilson, Sports Editor of "The Globe," knows his field, especially the Canadian and American ends of it. His "size-up" of the relative importance of the daily news of sports, his selection of the vast amount of material available and his comments linking up world happenings in sport with local figures and incidents in the memory of Canadians have won him a national circle of readers.

"The Globe" is a Paper for Father, because it has such a complete survey of world news, such a strong leadership in politics and business and finance. It is a Paper for Mother and Sister, because it devotes such liberal space to homemaking helps and suggestions, to fashions and to social events. And, because of its clean, complete sporting news service, it is a Paper for every red-blooded young fellow in Canada who takes any interest in athletic events.
