NEWSPAPER FUN

By Maxton Foxhall Judell

It's Another "Fish Story"! We often wonder why the guys so versed in fishing lore and wise whose catch "last year" broke records too, Did not go back again, don't You?

He Wants to Know.

"What is this?"  
"Our new neighbor, the bride next door, sent over a cake."

"For what?"

"Why I suppose she wishes to cement pleasant relations?"  
"Is this a sample of the cement?" —Gertrude.

### THE HERO.

By Norman C. Brantigan.

I ought to have a medal For what I did last night; I know tonight my bed'll Feel just about all right. No wonder all my muscles And both my feet are sore. You should have seen the tussles I had on that dance floor!

The thought of it is bitter, But one inclined to gout At my age, is much fitter To take old ladies out. Though I'd prefer a fairy I danced the minuet With ladies far from airy. Who made me puff and sweat.

Through waltz and fox trot snappy With heavy dames I stepped; It made them very happy. So to my task I kept; Although my head was swimmin', I paid my social debt; Gosh, aren't neglected women A mighty graceful set!

### Useless Bargain.

"This vacuum bottle will keep things hot for you indefinitely."  
"No, thanks. I married something like that."

—Marjorie Goldie.

Night hawks are usually out for a lark—and a chicken or two.

### The Show-Off!

Prisoner: "Yes, sir, on the night in question I may have had three or four drinks of whiskey."  
Judge: "No bragging!" —J. G. Dohlen.

A Wedding Experience. Some time ago, when on our wedding trip, my wife and I went to Delaware Water Gap for a short stay. It was perhaps the third or fourth day after our arrival there (we had gone there immediately upon the completion of the ceremony) when I awoke one morning, and found my little bride sitting dejectedly at the window.

Instantly I was all solicitude, leaped from the bed, and was by her side in a moment. Looking into her face, I said: "Dearly, why do you look so sad? Have you a headache, or are you ill?"

Her delicate face, clouded over, and her eyes welled tears. She buried her face in her hands and sobbed: "I don't know what's the trouble, but I feel so blue. You see—you see I have never been away from h-h-home like this with a stranger in my life."

## MAKE CANADA PROSPEROUS.

A Policy for All Canada by W. O. Sealey, Hamilton.  
An export duty or embargo on our raw pulpwood and pulp.  
An export duty or embargo on our sawlogs, good quality rough lumber, and all other raw or slightly manufactured forest products.  
An export duty or embargo on raw or slightly manufactured asbestos, and similar products.  
An export duty or embargo on nickel, copper, gold and all other kinds of mineral products, until they are converted in Canada into reasonably finished products.  
A positive embargo on Hydro Electric energy.  
A reasonable embargo against foreign fruits and vegetables.  
An embargo or export duty on wheat to countries that have a prohibitive tariff, or almost so, against us.

Is it not time we stopped the foreign capitalists flibustering all our natural resources?  
Improve our fishing industry. Why the price of fish so high to the consumer, and the fishermen making no money?  
Restoration of the 6c per bushel railway on wheat, from the prairie provinces to Quebec.

The operation of the Canadian National Railways at rates just covering operating costs for the present, trusting to the immense increased business encouraged thereby, which would surely and quickly follow, to pay interest on the whole investment.  
No amalgamation of the C.N.R. and the C.P.R., but a close co-operation to avoid overlapping in the meantime, with a probable purchase of the C.P.R. by the C.N.R. later on.

The operation of our Canadian Government Merchant Marine, with necessary additions, from Quebec to Britain, Europe and other distant markets, at a rate on wheat, cattle, etc., consistent with encouraging Canadian trade, freed from the effect or influence of the North Atlantic Conference, or any other combine influences, thereby greatly increasing our trade, with return carrying cargoes of merchandise or Welsh Anthracite coal.  
Directing the shipment of our exports, so they reach their destiny to consumers, without passing through another country, and especially our wheat, cattle, etc.

Route all our shipments through Canada, via Canadian ports.  
Grinding a much larger part of our wheat in Canada, so our milling industry will increase tenfold, the oil be fed here, and returned to the soil, thus tremendously stimulating our livestock industry, fertilizing and improving our farms.

The rapid development of our Canadian coal, and its transportation throughout Canada at moderate rates, so Canada, with a superabundance of this fuel will be self-reliant, instead of almost entirely dependent on the foreign monopolists, sending them a hundred millions of our good Canadian money, every year therefor.  
Developing our Iron Ore to our own uses and requirements, instead of importing it all.  
Take the Government Merchant Marine operating on the Pacific, to Australia and other British ports, out of the combine immediately, and operate it in the interest of the people.

Public ownership construction, and operation of our public utilities for the people.  
Employment for every man in Canada requiring it.  
Encouraging the use of Canadian materialists in Canada, wherever possible.  
Yours truly,  
—W. O. SEALEY.

## NAPANEE PEOPLE HAD A PLEASANT OUTING

Sunday School of St. Mary Magdalene Held a Picnic at Glenora.

Napanee, July 21.—The weather was propitious yesterday for the Sunday school picnic of the Church of St. Mary Magdalene. The sun shone brightly, and a balmy breeze was blowing, as a large and happy party boarded the steamer Brockville, bound for that delectable island implanted amongst the most beautiful scenery of the beautiful Bay of Quinte, and known to fame as Glen Island. Just across a narrow strip of water, is Glenora, where is situated the famous and mysterious Lake of the Mountain.

The island reached, most of the passengers departed there for that was where the picnic and a fine programme of sports were held. After the contests had been completed, and prizes awarded to the happy winners, ample justice was done to the well-filled baskets.

A number of the passengers went on to Picton, enjoying en route the beautiful scenery of Picton Bay and later on the charming town of Picton, with its many fine stores and other attractions.

The return trip to Napanee was most enjoyable and the Brockville landed her passengers at the wharf here at 5.45 p.m., thoroughly satisfied that they had a splendid day's outing and ideal weather.

Fletcher McGreer, of Montreal, is visiting his brother, Charles McGreer, River View Farm, and his sisters, the Misses McGreer, Bridge street.

Miss Marjorie Daly is enjoying an outing at the Girls' Camp, at Varsity Lake.

Mrs. Fletcher McGreer and her daughter, Claire, Montreal, are spending a vacation at Gananoque.

The Napanee river is badly in need of dredging. The weed-beds are encroaching so on the channel that after the passage of a large steamer, the stream is so full of floating weeds that it is almost impossible to navigate a motor boat.

A male quartette from the choir of the Church of St. Mary Magdalene, will assist at the laying of the foundation stone ceremonies at St. John's Church, Bath, on Wednesday.

Miss Mary Rogers is enjoying a two weeks' vacation.

Miss Ethel Lloyd is home from the West for the holidays. Dan O'Neill, who has spent the past couple of weeks here, returned to Detroit yesterday.

Mr. Anthony McCarney, nephew of Neil McCarney, was taken to the Hotel Dieu on Sunday, suffering from throat trouble, and is reported to be in a serious condition.

Mrs. Wesley Keating and daughter, Helen, Winnipeg, who are visiting friends in this vicinity, are expected here to-morrow to be the guests of Mr. and Mrs. George Scott.

Some of our young men, who are in camp near Seeley's Bay, had a very exciting experience last Saturday, when they were chased by a bull and had to climb trees. All their efforts at compromising were of no avail, and his majesty the bull, refused to let them return to their canoes, thus necessitating a long tramp to their camp on foot.

The family of the late C. E. Britton have kindly donated to the Golf Club, one of the 90-foot spars on the old "Briton," the schooner that lies on the north side of "Mudluta." This spar will be removed very soon from the schooner, and used near the Club House, as a flag pole, and will be plainly visible for a long distance on the highway. The American members of the Golf Club have kindly offered to pay the cost of removing the spar from the boat, and the erection and all members of the Club are very much elated over this fine gift, not only for its utility but also for its historic interest. The Briton was built about seventy years ago.
