ADDITIONAL PAVING APPROVED BY COUNCIL

Recommendations of Board of Works Adopted and By-Laws Put Through.

At a special meeting of the city council held on Monday night, the additional paving programme, as recommended by the Board of Works, at a meeting held a few days ago, was adopted and by-laws passed to cover the same.

It has been decided to construct sheet asphalt pavements, with a concrete base, on the following streets: Division street, from Princess street to Stephen street.

Alice street, from University avenue to Albert street.

Victoria street, from Princess to Union street.

A macadam roadway will be constructed on Division street, from Stephen street to the city limits.

A sheet asphalt pavement will also be laid on Brock street, from Nelson to Victoria street. This was not recommended in time to go before the council, in the form of a by-law on Monday night, and will be put through at the next meeting of the council.

On the recommendation of the Board of Works, a by-law was also passed for the construction of a concrete walk on the east side of Victoria street, from Johnston to Earl street, under local improvement.

On the recommendation of the Board of Works, council granted the petition of the Modler Company and John Tweddell, for electric signs; on the board's recommendation, it was also decided to sell one of the city's pavers to J. B. Wilkinson, of Gananoque, for the sum of \$150, and to allow Agnes Walsh, a refund of 70 cents charged for snow shovelling.

Still More Paving.

Ald. O'Connor brought up the matter of paving George street, from Stuart to King street, and also O'Kill street, from Barrie to King street, and the matter was referred to the Board of Works, for consideration.

On motion of A. Driscoll and Holder, it was decided to purchase six canvas covers for the garbage wagons, at a cost not to exceed \$75.

On the suggestion of Ald. Laturney, the council decided to do the general pointing on the city buildings by day labor, and under the supervision of the city engineer.

Ald. Laturney also brought before the council the matter of unemployment, and stated that many men were anxious to get to the western wheat fields, to help in the harvest, and raised the question as to whether the city would care to pay the railway fare of men who wanted this work, but the council took no action.

Ald. Dunphy referred to the case of a citizen who had a suit of clothes ruined as a result of falling in the tar placed on the roadways, but council took no action as no reports have been received from the city solicitor or engineer.

Outside Fire Protection.

Ald. O'Connor brought up a matter that has been before the council on several occasions—that of giving outside places fire protection. At a meeting some time ago, it was decided not to assist outside places, unless a special arrangement was made with the city for protection. Portsmouth now has an application in for protection. The general opinion of the council appeared to be that the city should help those who help themselves, that is, that the city fire department should give assistance to places where steps are being taken to safeguard against fire. The matter was left with the fire and light committee for a report.

On the recommendation of the finance committee, the request of the Kingston General Hospital, to hold a "Tag Day," on October 3rd, was granted.

It was also decided to declare Monday, Aug. 3rd, as Civic Holiday.

Permission for Siding.

At a recent meeting of the public utilities commission, it was decided to construct a railway siding across Place De Armes street into the utilities plant, over the Canadian National Railway, and on the recommendation of the Board of Works, the council decided to grant the necessary permission.

The communication received from the Portsmouth council, regarding fire protection for that village, was referred to the fire and light committee, also the petition of the residents of Dovercourt, north end of Victoria street, re fire protection.

The communications of M. C. Fenwick, re electric sign; M. Amodeo, re building an area way, and John Ashley, re claim for damages, were sent to the Board of Works.

The request of R. J. Bushell for a grant to the Kingston Industrial Fair, was referred to the finance committee, also the letter from the London, Ont., council, re an amendment to the Power Commission Act.

Mayor Angrove presided at the meeting, and the other members present were Aids. Boyd, Chown, Driscoll, Dunphy, Holder, J. F. Johnston, Joyce, J. E. Johnston, Kent, Laturney, Milne, Nash, O'Connor, Peters, Price and Reid.

Passed Away at Watertown.

William McAvoy, Brockville, died at Watertown, N.Y., on Thursday, and burial took place at Theresa, N.Y. Mrs. Mary Hayes, Mrs. Martha Moore, Mallorytown, and James and Dick McAvoy, Athens, are sisters and brothers.

Lord Burnham at Banff says disarmament is folly while Bolshevism threatens the world.

PUBLIC UTILITIES COMMISSION MEETS

Drain on Water Supply Heavy and Steam Pump Was Brought Into Play.

A short special meeting of the Public Utilities Commission on Monday afternoon discussed a half dozen items.

The contract for a carload of conduit material was awarded to the Northern Electric Company. An American firm also tendered but the Canadian product seemed just as good and two cents cheaper per foot. The chairman and the mayor spoke for keeping the money in Canada.

The C.P.R. offered the buildings on Barrack street, near the new railway siding, to the commission for \$6,000. The chairman thought the price high and the commission will visit the property in the next few days before going further.

The block on Victoria street between Brock and Johnson streets, will be completed as regards water and gas, so that the street can be paved. The same will be done with Alice street and on Division from Pine to Stephen street.

The mayor was given the job of settling the little controversy over the hydrant in front of Peter Lee's restaurant. The regulation keeping cars from parking near such a hydrant would not do in a backyard or on the inside of the street. The commission thought the parking rule might be waived in this instance, the mayor suggesting painting the hydrant black with a "Parking Allowed" sign.

Mr. Folger has found it necessary to bring the steam pump to the assistance of the electric pump, so heavy was the drain on the water supply last week. Citizens were reported using their hoses "all day long," but the chairman said he was in favor of putting in an extra pump to keep the lawns looking green.

The purchase of 1,500 tons of soft coal was authorized.

Those present were Chairman McFarlane, Mayor Angrove, Commissioners Campbell and Harris and Manager Folger.

KINGSTON MOTOR CAMP.

Many Tourists Remaining Here for Two or Three Days.

The Kingston Motor Camp at Lake Ontario Park is proving more popular every day and the number of tourists who take advantage of this popular place is increasing steadily. During last week, a very large number stopped at the camp over night and many who had the intention of stopping only one night were so impressed with the beautiful spot that they prolonged their stay for two or three days. The following is the list of tourists who remained at the camp over Sunday:

Ernest C. Botting, Hartington, (party of five).

A. Sutcliffe, Toronto, (party of two).

S. R. Harrison and wife, Cleveland, Ohio.

Mr. and Mrs. A. P. Harrington, Schenectady, N.Y.

Mr. and Mrs. F. McLeod, Toronto.

Mr. and Mrs. F. Casey, Ottawa.

A. K. Henselwood, Detroit, Mich., (party of four).

Mr. and Mrs. Oliver Marlott, Detroit, Mich.

Stick Driven In Mouth.

Putting a stick in her mouth to represent a pipe, when attempting to mimic her father, six-year-old Olive Chester, Perth, slipped and fell, causing the end of the stick to nearly sever a tonsil and to cut the back of her throat. She was rushed to the hospital and expected to revive.

British Columbia forest fire situation is improved, although dangerous yet in southern interior.

AMERICAN REGIMENT MAY VISIT KINGSTON

New York Soldiers Will Likely Be in the City on Wednesday Next Week.

If present plans are carried out, Kingston will have a visit on Wednesday next, from the Ninth Regiment, of New York.

This regiment will be encamped at Fort Ontario, near Oswego, from August 1st to 16th, and the members would like very much to pay a visit to Kingston on Wednesday, which will be observed as American Day, in connection with the Old Boys' celebration.

The matter was, on Monday night, brought to the attention of the members of the city council, who are members of the general committee for the celebration, following a communication which was received at military headquarters here. Frederick Hudd, the Canadian government trade commissioner, at New York. There are 850 members in the Regiment, and it is proposed to bring the soldiers over via boat, direct from Oswego, to Kingston, on Wednesday noon, and spend the day here, and take part in the celebration programme at the fair grounds.

It is proposed to quarter the American soldiers in the armouries, where dinner and supper will be provided by the city, the visitors being the guests of the city during their stay here.

The members of the council approved of the plan to have the soldiers visit the city, and Mayor Angrove was instructed to go ahead with the necessary arrangements for their trip.
