- New Potatoes, splendid cookers. Specially priced for week-end.

### City And Vicinity

**Cooler Weather.**  
The thermometer at Queen's Tuesday night dropped to 52 degrees. The highest reached on Tuesday was 71 degrees.

**Reception Committee.**  
The reception committee appointed for the old boys' celebration is making final arrangements for the big home week. Another meeting has been called for tonight.

**Dance at Collin's Bay.**  
Another very enjoyable dance was held at Collin's Bay Tuesday evening, the very large crowd showing its increasing popularity. The Sid Fox Serenaders furnished the music.

**A Number of Mayors.**  
Mayor Thomas B. Angrove says that quite a number of the mayors from this district will be present at the old boys' celebration, including Brockville, Gananoque, Napanee, Ottawa, Perth and Watertown, N.Y.

**Enjoying A Cool Wave.**  
A cool wave, which began in the west, swept over Kingston district last night and today. People think it presages an end of the wet weather. It will dry up the sodden hay and liven up the wheat, which now needs warm weather to ripen it.

**Back In Hospital.**  
Al Clarke, who gave his relatives considerable anxiety recently by disappearing from his home on Fifth Street, for several days and then turning up at Sydenham, is now back in the General Hospital receiving treatment.

**Buried at Cape Vincent, N.Y.**  
Miss Mary E. Poola, a former school teacher, died at St. Paul, Minn., on Sunday. She was born at Carleton Island, and lived for years in Cape Vincent, N.Y. Her remains were brought to Cape Vincent, N.Y., and interment took place on Wednesday.

**Must Have License.**  
Kingston's dog catcher is still very active, and during the time he has been on the job, he has rounded up quite a number of vagrant canines. Three cases will be heard in the police court on Thursday morning, when citizens will be charged with neglecting to secure dog license.

**Boys Are Thoughtless.**  
Complaint is made of the thoughtless destructiveness by boys, who grab little saplings, in the parks and on the street, and shake and wrench them violently, endangering the life of the trees. It is always a good plan for boys not to touch anything on the streets or elsewhere, which is meant for beautification.

**Is Improving Splendidly.**  
It was Arthur Wartman, not Workman, purser of the SS. Toronto, who was operated on in Brockville for appendicitis. His mother came up from Brockville on Tuesday, and reported him as improving splendidly. The officers and staff of the SS. Toronto have been extremely kind, keeping his hospital room aglow with flowers. Mr. Wartman is a Queen's graduate.

**Here From Ottawa.**  
Mayor Balharric, wife and daughter, of Ottawa, were visitors in the city on Tuesday, on their way to Toronto, accompanied by Controller Mellroy, also of Ottawa. Mayor Balharric will be here again on Monday next, to attend the old boys' reunion. Ottawa will also be represented at the reunion by Controller Mellroy, Ald. Langlois, Ald. R. W. Low and Ald. Lafortune.

**Enterprise Lawn Social.**  
The lawn social which was held on Monday evening under the auspices of the Woman's Institute of Enterprise, drew a large crowd and the affair was very successful. The delightful programme was furnished by "Jack" Elder and other Kingston talent. Miss Elizabeth Mellow, of Enterprise, was the accompanist, and her accomplished playing added much to the success of the evening.

**Here From Akron, Ohio.**  
Mr. and Mrs. Edward J. Clark and son have arrived from Akron, Ohio, for the old home week and are with Mr. Clark's sister, Miss Mary Clark, 143 Division Street. Another brother, William T. Clark, formerly of Los Angeles, Calif., is also here. The former party motored from Akron, Ohio, leaving there on Monday morning. They came through a very heavy rain in western Ontario.

**Repairing Old Medical Building.**  
Mechanics of many trades are busy on the Old Medical building at Queen's. In the basement a concrete floor is being laid, while on the roof tarring is in process. Plasterers, electricians and plumbers are at work inside, where most of the rooms have had a coat of plaster. The two sky-lighters are in place for the large anatomy room, which will also be lighted by nine other large windows.

**About The Arch.**  
A member of the committee on decorations for Old Boys' Week, speaking of the criticism that is being levelled at the committee who had the arch put up at the corner of Brock and King streets, stated that those in charge of the arch were quite capable of handling the affair entrusted to them as they generally did things pretty nearly right. Much criticism has been made of the way in which the arch matter was handled. People think it was

put up too early. The "green" is now nearly yellow and it is understood that all new evergreen will have to be put over the top. Spraying it with green paint has been suggested.

**Another False Alarm.**  
Some person or persons with a queer sense of humor sent in a false alarm from box 83, corner Division and Stephen streets, at 11.22 on Tuesday night. The person guilty of this act was not found.

**Just One Delivery.**  
There will be just one delivery of mail in Kingston on Monday next (civic holiday) and that will be in the morning. The post office lobby will be open all day, for the benefit of boxholders, while the registry office and the general wicket will be open from 8 to 10 a.m. There will be two collections made of the street boxes, one in the morning and the other in the evening.

**Have Had No Word.**  
The Whig has had much enquiry as to Mr. and Mrs. E. Paterson, Kingston, Ont., who were reported lost in the Adirondacks last Saturday. The despatch came from Syracuse, N.Y. No one of that name has been away from Kingston, as far as we can ascertain. No further word has been received about them. Some people here think Kingston, N.Y., is intended rather than Kingston, Ont.

**Howe Island Scow Ferry.**  
John Damer Cadue of Howe Island reports that he is meeting with success in his effort to collect sufficient money from merchants of Kingston and residents of the island for a scow ferry between the Narrows and the mainland. He has a two-outo scow in view and already has secured over \$200 in donations. Mr. Cadue says this scow is much needed for people residing in the middle of the island, and will be beneficial to Kingston.

### LETTERS To The Editor

**Thanks From Anderson Bros.**  
Kingston, July 28.—(To the Editor): Our anniversary sale of last week was a great success exceeding our widest expectations. A very large percentage of this we attribute to advertising and the co-operation received from our friends.

Thursday, No. of sales . . . . . 1906  
Friday, No. of sales . . . . . 1250  
Saturday, No. of sales . . . . . 4030  
Total . . . . . 7186

We thank you very much for the interest you have taken in us. Your attention was appreciated very much and will not soon be forgotten. I suppose we have been advertising in the Whig for fifteen years, and during that time our ads have always received the very best of attention and your staff have been most courteous. Again thanking you for your kindness, we are  
Yours very truly,  
ANDERSON BROS., Limited.

**Protection From Fire.**  
East View, Kingston, July 28.—(To the Editor): You are recording the annual losses to farmers in barns struck by lightning. This need not be, and the regular \$100 patent lightning rod is not a necessity. To string one, better two or three, good wires, as large as 'phone wires, over the barn, two feet or so high, well grounded, better at both ends of the barn, grounded if possible in a well, at least in damp earth, would be a safe protection.

**Proof: The Hydro and other light companies string a wire above the light wire grounded at intervals. The poles of 'phone and telegraph wires, used to be split up by lightning striking the wires. Now, a wire grounded at the foot of a pole is stapled up the side and allowed to extend five or six inches above the end of the pole. There are no more poles destroyed by strokes of lightning. When the roof is iron, this iron roofing simply has to be grounded to make protection perfect.**

Stapling wires up over the buildings would help, but anyone can see that the wire or wires, strung above at a little distance would be preferable.  
—L. M. ENGLAND.

E. J. Clark, of Akron, Ohio, was the first Old Boy to get a badge. He called on the city clerk, Dr. Sands, on Wednesday morning, and started the ball rolling for next week. "Ashes of Roses powder." Gibson's.

The late Joseph A. Bradley, Lansdowne, was an uncle of the late Dr. G. F. Emery and Mrs. Emery, Bagot Street.

"Phone 220." Gibson's, drugs. Miss Mollie Fitzgerald, aged forty years, of Clayton, N.Y., died on Monday night. She had been ill for five weeks. Fresh Page & Shaw sweets. Gibson's.
