THE GREAT EXTREMES

Of Weather That Are Developed at Cloyne.

Experienced Wild Storm.
Watertown, N.Y., Aug. 7.—Watertown experienced one of the worst summer storms in its history, combining lightning, a deluge of rain and a fall of hail that in some places covered roofs, on Monday afternoon. While some damage resulted from flooding by backing sewers and water pouring in through windows, this city suffered insignificantly compared to farmers in Rutland, Pamela, and other townships south and north, where wind, hail and water leveled grain fields, corn and such grass as remained standing at this late period of the haying season.
With an estimated attendance of five thousand each, twenty conventions have been booked to take place in Montreal for August, September and October.
