Rod and Gun.
What promises to be one of the best and most interesting of wild life study series commences in the October issue of Rod and Gun, just published. The series is written by the well-known naturalist, Raymond Thompson, and the first article is a lengthy and very interesting account of the beaver. Judging by the material contained in this article, the rest of the series should prove valuable and interesting reading matter for the lover of wild life. Rod and Gun is published monthly by W. J. Taylor, Limited, Woodstock, Ont.
