### A HIGH TARIFF WOULD SPELL RUIN

(Continued from Page 1)

for any commodity we have to sell but would definitely mean a higher price for everything we have to buy from shoes and clothes for the family to the machinery used in developing the great natural resources of the country.

### Higher Cost of Living.

What does it mean to the city dweller? It means for every family in this city of Regina a definitely higher cost of living, higher prices for everything which is purchased for the family and I venture to say that it does not mean an increase in salary or wages for any man or woman within the sound of my voice.

"In some parts of Canada. Conservative speakers are stating as the policy of their party the raising of the Canadian tariff to the same level as that of the United States. I have made some study of the possible effect of this and wish to solemnly state here my opinion that a Canadian tariff on the same basis as that of the United States would ruin Western Canada by forcing the cost of production so high as to make farming operations generally unprofitable. I cannot bring myself to believe that the people of any part of Canada desire to adopt Meighan's disuniting policy.

With an issue so clear and fundamental as this, the wonder is that those opposed to increasing the tariff tax burden do not organize together with the common objective of preventing the return of a Tory Government. No one regrets more than I do the division of the low tariff forces in Western Canada but I do not intend to waste time in criticism of men or parties who differ with me on some matters but who think as I do with regard to this great tariff issue. As is frequently the case, the forces of liberty and progress are divided. Divide and rule, is an old Tory axiom, and the principle is being followed to the limit in Canada to-day. On such an issue in a straight fight everyone knows that a single Meighan supporter. With the prospect of three-cornered contests there is Tory activity even in this province! While dissension among like-minded people is unfortunate, I am convinced that the same common-sense of the Western people will see to it that whatever else happens, Meighan candidates shall not be allowed to slip in because of it. I cannot dictate or influence the course to be taken by Liberals or Progressives in any constituency but I can plead that both display a sufficient interest in the welfare of the country to see to it that their rivalry does not result in the election of Tories supporting a policy absolutely opposed by the great majority of our people.

### Critical Election.

"To my mind this is the most critical election since the opening up of this part of Canada. It will soon be sixty years since final arrangements were made to create a nation in British North America extending from the Atlantic to the Pacific. After years of struggle and then only as a result of mutual concessions, Confederation was established upon the principle of unity in diversity, recognizing the diverse interests of the various parts of Canada, providing for them so far as possible by the establishment of Provinces with wide powers of Government. From that time forward the great problem of Canadian statesmanship has been to maintain unity in spite of divergence of interests. To my mind the proposals of the Conservative party in this election tend to foster sectional division and disunity because they tend to force the less populous parts of Canada, more especially the Maritimes and the West—to make even greater concessions in the form of higher taxation than they are now doing—concessions which cannot be made without serious economic consequences to their people."

### A Very Sudden Death.

Selby, Sept. 28.—A number attended Rally service on Sunday afternoon. Rev. Mr. Coleman, Napanee, took charge of the thanksgiving service in St. John's church, on Sunday. Many were shocked to hear of the sudden death of Sidney Pringle. Much sympathy goes out to the bereaved family. Mrs. T. Carscadden died at her home, north of the village, on Sunday night.

We are sorry to say Miss Myrtle Coolidge is quite ill at the time of writing. We hope for a speedy recovery. A number attended Mrs. Davis' sale on Monday. Potatoes are not a very good crop around here. Mr. and Mrs. Hankin spent Monday at A. Frisken's.

Western crop outlook continues to show improvement as threshing progresses.
