**"LOST A WIFE" AT STRAND.**  
An unusual title is "Lost a Wife," which is the picture at the Strand Theatre today and tomorrow. But it is not more unusual than is the picture. Adolphe Menjou and Gretta Nissen appear in a saucy piquant comedy-drama of society, such is "Lost a Wife." Don't miss it.

**"NEVER THE TWAIN"**  
A GORGEOUS PICTURE.  
At last the South Sea Islands have been brought to the screen in a completely enchanting and effective story, "Never the Twain Shall Meet," adapted from Peter B. Kyne's novel of the same name. The picture had its first showing here last night when it began a three days' engagement at the Capitol Theatre.

Pictured in the South Sea Islands, "Never the Twain Shall Meet" brings to the screen a note of realism and a series of gorgeously beautiful backgrounds that vie with any ever recorded by the motion picture camera. Tahiti and Moorea are used as the South Sea Island backgrounds for this torrid story of love, romance and adventure. As Tamea, the half-caste princess, Anita Stewart has an unusual opportunity to portray the various facets of a dual-nature—the passionate and stormy temperament of her native mother and the more civilized and reserved disposition of her French father.

Bert Lytell has the role of the American youth who is lured away from his ambitions and civilized mode of living by the bewitching Tamea, only to be compelled to return to his former state of life by the knowledge that a continuance of his lazy existence in the islands will spell destruction to his moral and physical nature.

**MILITARY PROGRAMME OF PREMIER BRUCE**  
Is Outlined for Australia—It Provides for an Army Corps.

London, Oct. 6.—Great interest is being shown here in military circles at Premier Bruce's cabled announcement of proposals of his Government, if returned to power, for Australian national defense. A naval programme, including cruiser and submarine construction, has been outlined before, but the military programme, providing for the formation of cadres amounting to an army corps, with auxiliary forces and two divisions of cavalry.

Five infantry divisions proposed, with their complement of artillery and air services and cavalry, would give Australia a standing army equal to the entire Australian force under arms at the armistice.

**THE DIRECTORS GAVE UNANIMOUS CONSENT**  
To President of Massey-Harris Company Entering King Cabinet.

Toronto, Oct. 5.—In one sentence, to which he would add nothing by way of discussion of the situation, Hon. Vincent Massey made reply early this morning at his home near Port Hope, when asked regarding the statement in a Toronto evening paper that he had been "forced to resign from the directorate of the Massey-Harris Company because the bulk of shareholders resented the way in which it has been sought to use the name of the company in order to further political ends."

"I have just this to say," stated Mr. Massey. "Before I accepted the Prime Minister's invitation to join his Cabinet I received the unanimous consent of my board of directors in the Massey-Harris Company, and since then I have received no intimation from them that would lead me to believe that they have changed their minds in any sense."

**SPORT**  
**NIAGARA FALLS IS GIVEN THE TITLE**  
The O.B.A.A. Refused Kingston's Request for a Sudden-Death Game.

Niagara Falls, Oct. 6.—President W. J. Snyder of the O. B. A. A. notified Niagara Falls baseball club last evening that Kingston Ponies had defaulted the final series for the championship owing to the fact that their wish for a sudden-death game could not be granted. The local club felt that it would be unfair to the fans of both cities to decide the series by a sudden death game. Also it is not fair to the clubs as there is too much at stake to be decided in one contest. Fans in this district were looking forward to the coming series and next Saturday's game at the Bridge Street grounds would have been attended by the largest crowd that has ever been present at a ball game in this district. Cataracts are also disappointed at Kingston, being unable to go through with the series as arranged.

**Local Club's Letter.**  
The following is the letter sent to the O.B.A.A. by President Steacy upon receipt of the announcement of the playoff dates:

Kingston, Oct. 5th  
A. J. Walsh,  
Secretary O.B.A.A.  
Toronto.

Sir:  
Your wire confirming dates for senior playoff series received, Wednesday at Kingston and Saturday at Niagara Falls. In reply would say that the local field is in an unplayable condition owing to the heavy downpour of rain of Sunday and today and even providing fine weather, would not be in shape before Friday or Saturday.

Owing to the lateness of the season, the uncertainty of the weather governing future games, inability to keep our players together for a longer period than this week, would suggest a sudden-death game on any neutral grounds, otherwise we will be forced to default the playoff.

Yours truly,  
B. NOBLE STEACY,  
President.

**The Globe's Remarks.**  
Toronto, Oct. 6.—The Toronto Globe sporting editor comments on his page this morning as follows:  
"There is cause for genuine regret

in Ontario amateur baseball circles over the fact that the Kingston team has decided to default the final round to the other finalists, Niagara Falls. The schedule arranged by the Ontario Baseball Amateur Association provided for a game at Kingston to-morrow and second at Niagara Falls on Saturday. The Limestone City management applied for revision of arrangement pleading for a sudden-death game to which the Falls would not agree, whereupon Kingston defaulted and the Cataract city team became Ontario senior champions.

Kingston, October 5th, 1925.

To the Electors of Kingston and Portsmouth:—

Having been nominated at the Liberal Convention held recently and consenting to contest the riding, I earnestly solicit your support and your votes.

I have been in business in Kingston for the past forty years, and have shared in all efforts to make Kingston prosperous and aggressive, and have entered, financially, into various industries in the city, some of them proving to be successful and giving employment to our workmen. I have made every endeavor to secure Kingston as the terminal of deep water navigation on the great lakes; the matter is nearing a conclusion and it only requires a vigorous effort to secure this desired industry involving large expenditures by the government in elevators and all needed requisites. As there is not a shadow of doubt but that the Liberal Government will be returned to power, it would be to Kingston's advantage to have a member of that party returned to parliament. I strongly advocate the immediate development of the St. Lawrence for power purposes.

I am in sympathy with the policies of Rt. Hon. W. L. Mackenzie King, which I consider are in the best interests of the country. I seek to serve the city as a whole and not in any narrow partizan fashion. If you think my training and experience will be of value to Kingston, I solicit your support and co-operation, and if returned, will give my time and energies wholeheartedly, as in the past, for the advancement of the best interests of the city. Every vote counts.

Yours very sincerely,  
**J. M. CAMPBELL.**
