

After all else failed, Kellogg's ALL-BRAN brought sure relief from constipation

Thousands have cleansed their systems of constipation's poisons. Constipation exacts a telling price. Its hideous poisons lead to over forty devastating diseases. But let Mrs. Rensch tell her story:

Kellogg's ALL-BRAN is the very best I ever used for chronic constipation. I have used all kinds of medicine and nothing helped me like ALL-BRAN. It has such a nice flavor and it is cheaper than paying out hundreds of dollars seeking relief.

Yours truly, Mrs. A. P. Rensch. (Address on request). Don't neglect constipation. Drive its terrible poisons out of your sys-

tem. Eat Kellogg's ALL-BRAN regularly—two tablespoonfuls daily, or in chronic cases, with every meal. ALL-BRAN brings sure, permanent relief. It is what doctors call a bulk food. It sweeps the intestine clean and stimulates normal, natural action. Kellogg's ALL-BRAN is ready-to-eat with milk or cream. Also try the recipes given on the package. Results guaranteed or your grocer returns the purchase price. Made in London, Canada. Served in leading hotels and restaurants. Sold by all grocers.

A TRIO OF PAJAMA COSTUMES AS EXHIBITED BY HENRI BENDEL, NEW YORK

The pajama costume for woman's hours of ease has become a staple article in the wardrobe as the kimono or the dressing gown. "Pajamas, like all the other accessories women have borrowed from men, have undergone subtle changes and have travelled far from their starting point," says Henri Bendel, New York fashion authority. "The result is that the pajama is the ideal costume for the boudoir."

New Methods Found To Detect Cancer

Two new methods of diagnosing or detecting internal cancer in its

early stages are reported from Europe.

While biologists and bio-chemists are working to discover the fundamental nature and cause of cancer, surgeons and physicians are of necessity concerned chiefly with treating cancer when it occurs.

An external cancer is readily dis-

covered. But an internal one is far more difficult to detect.

Since at present the success with which medical men can combat a cancer is in direct ratio to the earliness with which it is discovered, it can be seen at once why the new European advances are so important.

The first method of diagnosis is the work of Dr. Kotzareff and Weyl of Geneva, Switzerland.

They have discovered that if a dilute solution of serum containing radio-active substances in a colloidal or pasty state is injected into a patient suffering from cancer, a peculiar phenomenon takes place. For some unknown reason, all the radio-active substance becomes localized in the cancer growth.

If a sensitive photographic plate is then exposed for some hours over the suspected part of the body, the outline of the cancer is found upon the plate as a result of the action of the radio-active substance.

The second method of diagnosis has been worked out by Dr. Botelho of the so-called Hotel Dieu, the famous hospital near Notre Dame in Paris.

This method, it seems, does not give the exact location of the cancer growth but merely indicates a cancerous condition in the patient.

In this test some of the blood serum from the patient is mixed with dilute nitric acid and an iodine reagent. If the patient is normal, Dr. Botelho says that the serum remains clear. If the patient has cancer, the serum becomes cloudy.

Concerning the treatment of cancer, early surgery, according to the statement of Dr. Erwin F. Smith, president of the American Association for Cancer Research, still remains the best treatment. Dr. Smith adds, however, that the use of radium and X-ray in many cases delay the growth of cancer and in some cases seems to have effected cures. In the case of these cures, Dr. Smith thinks it is too early yet to say whether the patients have been permanently cured.

Dr. Smith also issues a warning about the use of radium and X-ray. In the hands of incompetent workers, he says, they are "deadly weapons."

SIGNED AT LAST

Raquel Meller, famous Spanish movie star and light opera singer, is under contract to appear in America after having broken two previous contracts. Only this time her contract provides that she must pay a penalty of 1,000,000 francs if she fails to appear.

Fragrant and Pure

"SALADA" TEA

is kept deliciously fresh in airtight aluminum foil packets. Never sold in bulk. Try it.
