

PICTON HEARS ABOUT WORK OF THE W.C.T.U.

Mrs. T. E. Owens Bruised When Knocked Down by a Motor Car.

Picton, Oct. 14.—At the Baptist church last Saturday afternoon the ladies of Prince Edward county were privileged to listen to two of Ontario's most eminent speakers, Mrs. E. N. Baker of Belleville, superintendent of scientific temperance, and Mrs. Gordon Wright of London, Dominion president of W. C. T. U.

Mrs. (Dr.) Shorey, honorary president, occupied the chair and with her on the platform were besides the speakers, Mrs. M. E. Knox, local president, Mayor Newman and Rev. W. M. Fee, M.A.

Mrs. Baker addressed herself particularly to the teachers of the county. She said the well being of our country rests with the teachers. We look to our teachers to give the stimulus to our young people along moral lines. We have tried to gain temperance by educative and legislative methods. Our legislative methods have failed so we now must apply ourselves to a more aggressive educative campaign.

Mrs. Charles C. Spencer favored the audience with a most appropriate solo.

Mrs. Gordon Wright made a strong appeal to the teachers present to become members of the Union. She gave assurance that all moneys given to or raised by the W. C. T. U. were spent at home for the furtherance of moral reform and social uplift. She then referred to the great International convention of W.C.T.U. workers which convened in Edinburgh, Scotland, this past summer and at which she was privileged to be one of the Dominion's representatives. The last year before the great war she attended a convention to which forty-six nations sent representatives. One year after the close of the war the W. C. T. U.'s of the world convened forty-six nations strong. The League of Nations which met at Geneva, was pledged to stand together to eliminate war but the W. C. T. U.'s of the world are pledged together to eliminate the nation's curse, the legalized liquor traffic. If we are going to have no more war then we must banish, forever, that which makes demons of men.

Mrs. T. E. Owens was badly bruised and shaken up one day recently when she was knocked down by a car on Main street. Mrs. Owens had just alighted from her own car and as she started to cross the street the oncoming car was hidden from her view by a lumber wagon. The car was travelling at a slow rate of speed and she was merely knocked down and dragged. Fortunately no bones were broken.

R. A. Rupert, New York, and his niece, Miss Della Empey, were over the week-end guests with Mr. and Mrs. H. S. Miller.

Mrs. Gordon Wright spoke at the morning service in the United Church on Sunday morning last.

Mrs. Huffman passed away at the home of her niece, Mrs. W. W. Glow, at an early hour on Sunday morning, after a long illness. The remains were taken to Belleville on Monday for interment by the side of her husband, who predeceased her many years ago.

Mrs. W. W. McCaw had the misfortune to fall one day last week seriously injuring her hip. She is now confined to her bed with Nurse Gunter in attendance.

Miss Alice E. Williams of the Rosebud hairdressing parlors has recently purchased the local branch from Robertsons.

Miss Arilla Smith has bought out Mr. M. Maybee's interest in the Smith and Maybee grocery store.

"Why I Should Vote Conservative"

Bring Our Boys and Girls Back Home Give them work in Canada

THE CREAM of our youth, fresh from our schools and colleges, are leaving the homes that have raised them, are forsaking the country that has educated them, and are throwing in their lot with Canada's greatest rival.

Canada educates these young men and young women at the public expense—brings along a new lot of them every year—for what? For Uncle Sam to take his pick! And the irony of it is that when he gets them, he frequently employs them at tasks that result in loss of business, loss of employment, to people in the country of their birth.

Our boys and girls should have the opportunity of getting work and of making careers for themselves in Canada. The breaking up of families and the loss of our best blood to the United States must stop.

Embrace Protection and Stop the Exodus!
