Why Are Errors of Vision So Generally Neglected?

Often it is because the person does not know that he has an error of vision. Not knowing that it exists, it is naturally not given attention. The wisest plan for everyone to pursue would be to have the eyes examined whether they seem to need it or not. Then every error of vision would receive proper attention. If you have been wondering about your eyes, let us give you the facts about them.

REPAIRING DAMAGE DONE TO CITY HALL

Much Stone in the Walls Has to Be Replaced—Masons Are Busy.

The ravages of the weather on the city hall have caused such damage that it will take several years before the building can be put in first-class condition. Rain has seeped into the divisions between the stones and this has frozen, cracking the stones so badly that in many cases they will have to be replaced. McCartney Bros. of Kingston have the contract, and for the past two weeks men have been working on the east side of the building.

The south-east corner has now been completed. The bad stone has been taken out and new bases have been put under the corner pilaster and the two pilasters on the Market street side. The step guards at this corner have also been taken down and reset. The scaffolding has been left up for a few days until the sheet lead can be put over the top of the door. The object of putting the lead over the stones above the door is to prevent moisture getting between the stone and causing a repetition of the damage which is now being repaired.

Just at the present time the masons are working on resetting the stone under the large column at the left side of the south-east main entrance. It is the intention to work right along to the north-east corner of the building and work will be needed on each one of the four large columns. New stone has been set into the caps over the two columns flanking the south-east main entrance and the stones in the arches over the basement windows have been pointed up. The scaffolding has been removed from the main entrance and it will now be erected over the entrance to the market house on the west side of the building.

A staff of from ten to twelve men are employed on the job all the time and the firm doing the work expect that it will be six weeks or two months before the weather will force them to quit. The work has gone along smoothly, and so far no accidents of any kind have occurred.

Important Mining Discovery.

Messrs. R. E. McIntyre and H. S. Sugden are in town and are stopping at the Chateau Belvedere. They are here to meet a number of gentlemen who are interested in recent developments in connection with the Fluke Gold Mines, about which an advertisement appears in this issue. Another important find has been made on the Pelletier Lake property, the big dyke which runs across this property and traced for over one quarter of a mile and blasting through the capping has disclosed a large body of free-milling ore, plentifully peppered with free gold. It has a width of thirty feet, and is regarded in the camp as one of the most important discoveries to date. Messrs. McIntyre and Sugden will be pleased to confer with any who are interested in this exceptionally valuable proposition.

FIRE AT MORRISBURG.

Cold Storage Plant of Ashton Co. Destroyed.
Morrisburg, Oct. 16.—The cold storage and freezing plant, barns and poultry sheds, with all their contents, of A. H. Ashton & Company, were completely destroyed by fire early yesterday morning. The residence of Mr. Ashton, which adjoined the plant, was also burned as were the barns containing this year's crop from the Ashton farm, only one building remaining. The thoroughbred cattle were saved. This property is situated back of the Canadian National Railways track, at the northern outskirts of the town. The cold storage was erected many years ago and was improved from time to time, making it an up-to-date freezing plant at the time of the fire. It was run for a few years by the United Farmers' Co-operative Company, but during the past season came back into the hands of the Ashton Company, and the business was being carried on by the firm. The loss, which is very heavy, is only partially covered by insurance.

Happy Days

From a sparkling and refreshing morning drink

Let us show you how a sparkling drink can change many days for you. Days of unfitness, when you are not at your best, because the system is clogged with poisons and waste. Don't wait for delayed results. Drink a glass of water, hot or cold. Add a little Jad Salts. It will make a pleasant, effervescent drink. And the result in an hour will be to flush the intestines.

Save the day. Do this whenever morning indicates the need. Then remember that any hour can bring you like results.

Jad Salts contain acids of lemon and grape, with lithia, etc. The results are quick and gentle. Find them out, and you will want them many times. Ask your druggist for Jad Salts to-day.

AILEEN HYNDMAN,

The charming prima donna and remarkable vocalist, with the sparkling musical revue, "What's Next," which comes to the Grand next Monday for one night only.

Apples in Ontario

One of the finest crops in many years. This is due to several causes. A good set in the spring, good weather for maturing, ripening and coloring. Probably one reason for the good yield is that last year was very unfavorable, hence many trees had a year's rest in which to form fruit buds and store up energy for 1925. It is therefore highly probable that 1926 will see a greatly decreased yield.

Prices, except where there has been dumping of windfalls and poor fruit, promise to keep up. A large shipment of the very best is being sent to England by the Ontario government to advertise Ontario apples. Both Nova Scotia and B.C., especially the latter, are not up to the average. So a large number of apples will be shipped to Winnipeg and the west.

Now is the time for the householder to order supplies. Apples will never be cheaper than just now; they are bound to advance as the season advances. Though there is a very large crop, a very big proportion must be rejected as undersized. This always happens when trees are overloaded. Nevertheless, the quality this year of Ontario apples is remarkably high and it is no exaggeration to assert that nowhere in the world can apples be grown better than those in Ontario.

DANISH VIOLINIST PLAYS IN NAPANEE

H. B. Sherwood Suffers Another Stroke and His Condition is Serious.

Napanee, Oct. 16.—Napanee lovers of good music were wonderfully favored last night at Trinity Church when Skovgaard, the Danish violinist, one of the world's great violinists rendered a magnificent programme of real music on his famous \$13,000 Stradivarius. His technique is faultless and he has the gift of interpreting to his audience the music he renders so well, so that their feelings are attuned and akin to his own.

Madame Alice McClung-Skovgaard's performance on the piano was a perfect complement to her talented husband's contributions; both as to accompaniments and as to the beautiful selections she gave from classical composers.

The local branch of the Boy Scouts, under command of Captain Harry Babcock, scoutmaster, held a successful and most enjoyable dance at the armories last night. Excellent music was furnished and a good time was had by all present.

Dr. Duane R. Hall and Mrs. Hall returned to town, on Wednesday night, from their honeymoon trip.

John McAdams, of Erinsville was a visitor to town on Thursday.

William H. Poste, Shannonville, was in town this week.

H. B. Sherwood, East street, who has been quite ill for some time past, suffered another stroke on Saturday last and his condition is serious.

St. James' Taxis Boys.

Much interest is being manifested in the work of the invincible Taxis Square of St. James' church. The attendance is keeping up in a remarkable manner and the boys received an added stimulus last week when Mr. Plewman of Toronto, the secretary of the Boys' Board, addressed a meeting in the Y.M.C.A. Mr. Plewman suggested that the boys of Kingston should elect a representative to the Boys' Parliament which convenes at Toronto in the week between Christmas and New Year's.

Night Classes.
At the Kingston Business College, commence Monday, Oct. 19th. Rates moderate. H. F. Metcalfe, principal.

Miss Aizina Kellar, Picton, Ont., and Edward R. Gordon, Watertown, N.Y., were married on Monday evening.

GANANOQUE

Gananoque, Oct. 16.—Word has been received here by Commodore Wing of the Canoe Club that the American Canoe Association meet will be held at Lake George next year instead of Sugar Island. This was decided at a meeting of the A. C. A. held recently at Lake George. The reason for this change is with the idea of infusing if possible more enthusiasm into the racing features of the annual meets. It is anticipated that a large number will come as usual and spend their vacation at Sugar Island. Ralph Britton was in attendance at the meeting at Lake George.

Mrs. Madeline Forbes and little daughter leave to-morrow for New York after spending the summer here.

Edwin Peck, teller, Bank of Montreal, has received a call to Belleville. Miss Sadie Meggs has returned after visiting friends at Vankeek Hill.

C. J. Wilson has returned from a business trip West. Edwin Higgins will be found on the New Edinburgh team which plays against Gananoque here on Saturday.

Baseball fans listening in yesterday had an interesting time, and were kept guessing until the finish.

At the annual meeting of the King's Daughters and Sons held last Monday evening at the home of Mrs. Oscar Henne, the following officers were elected: President, Miss Mabel Carpenter; vice-president, Mrs. Henne; secretary, Mrs. Lambert; treasurer, Mrs. Sine; convener of flower committee, Mrs. James Thompson; convener of sewing committee, Mrs. A. Lucy; convener of programme committee, Mrs. Herbert Reid; convener of chair committee, Mrs. McKanday; "Silver Cross" secretary, Mrs. E. Spencer; pianist, Miss McCallum.

Mrs. Gordon Davis, who with her children has spent the past several weeks with her mother, Mrs. T. O. Middleton, returned to her home in Syracuse, N.Y., on Saturday last.

Miss Alice Pelew has returned after spending the past few weeks with her sister, Mrs. W. Lloyd, Winchester.

In Sunny California.
In sunny California this winter hundreds of Canadians will again revel in the beauty of the orange groves, the pepper trees and the palms in that land of perpetual summer.

The attractions of California are manifold. It is recognized as one of the greatest out-of-door playgrounds in the world, with an unsurpassed winter climate. The glory of its mountain scenery is indescribable. Deep-sea fishing, motor-ing, golf and every other outdoor recreation may be indulged in.

Canadian National Railways offer special fares and a wide variety of routes, going and returning either through Canada or United States. Apply for particulars to your nearest agent.

Beulah Items.

Beulah, Oct. 16.—Mr. and Mrs. Fred Day and son, Bobby, have returned to their home in Oiler, Sask. Threshing and filling silos is the order of the day. The Bay View Institute held their October meeting at the home of Mrs. Albert Browning. Mrs. Stanley Fraser is on the sick list. The people of this vicinity are looking forward to the chicken supper to be held in connection with the anniversary services at Beulah church. Miss Jennie Kavaner has returned to Kingston after spending two weeks with her parents, Mr. and Mrs. Kavaner.

The farmers are very pleased over the high price of cheese. There will be no service in Beulah church next Sunday; Sunday school at 10 a.m.

Too Much Zoo.
"Come with me to the zoo?"
"No, thank you; I'll stay at home. My daughter talks like a parrot, my son laughs like a hyena, my wife watches me like a hawk, my cook is as cross as a bear, and my mother-in-law says I'm an old gorilla. When I go anywhere I want a change."

Boys under 18 years, four entries—Norman Lickers, Oshweeken; Pettit Gray, Beachville; John Bruce, Spencerville; Clifford White, Prescott.

Special class, two-furrow walking ter; superlative, better not.

or riding plow, not less than three horses, five entries—J. L. McRitchie, Bainsville; H. T. Rutherford, Bolton; C. E. Walkington, King; W. Timbers, Stouffville; F. A. Smith, Winchester.

Team drawing contest, five entries—R. W. Grier, Fairfeld; R. Hamilton, Elgin.

Horrible Suspension.
Cleveland Plain Dealer: Statistics show that 18,000,000 boxes of rouge were used in the United States last year. Since there must be four times that many women, it would seem that a lot of them have been obliged to use common house paint.

Positive, bet; comparative, better.

Another Shipment Arrived

We have just received another shipment of Grate Baskets and Fireplace Screens.

18" to 27" Grate Baskets—\$6.00 to \$7.50 each
