GASOLINE TANKS ARE UNDER DISCUSSION

City Council Turned Down Application Made on Behalf of the Imperial Oil Company.

A clause in the report of the Board of Works was the only matter that caused any discussion at the meeting of the city council, on Monday night, and the business of the session was chiefly in the adopting of the reports of the committees.

He did not think it was fair in the report of the Board of Works. for the council to grant the request The by-law was presented by Ald. of the million dollar corporation, and Kidd, chairman of the Board of turn down the man who was trying Works. to make a living. The application of Mr. Bird, no doubt, was being many pumps on the street. He thought the council should give its support to the small garage man.

"I agree with Ald. Chown," remarked Ald. O'Connor. "They say that the oil company can erect these pumps on their own property without making application to the council. If such is the case, why should the council sanction their action If we grant the request of this oil company, we must also grant the request of Mr. Bird."

Ald. Kidd, chairman of the Board of Works, stated that the oil company intended erecting the pumps on their own property, and it was not up to the council to dictate to the company as to their selling practice. As to the application of Mr. Bird. there were members of the board who favored granting it, but a by-law had been passed stating that no more pumps be constructed on the streets "We have a by-law regarding this

matter and what good is it unless we carry it out?" said Ald. Reid. "The oil company has purchased this property and they can use it for what they like."

The motion of Alds. Chown and O'Connor to have the clause relating to the ell company struck out, was carried by a vote of 9 to 5.

The clause in the report of the Board of Works, asking that the application of Mr. Bird be not granted. was also carried. Other recommendations of the Board of Works were passed as follows:
