RESOLUTIONS TO BE DISCUSSED HERE

At the Meeting of Associated Boards of Trade and Chambers of Commerce.

The Ontario Associated Boards of Trade and Chambers of Commerce to meet in the Kingston City Council Chamber on Nov. 5th and 6th will consider these additional resolutions:

Postage Rates to Foreign Countries.
By Toronto Board of Trade: Whereas the development of the export trade of Canada is of prime importance; and

Whereas cheap postage is an important factor in trade development; and

Whereas the advantage to our export trade of reduced rates on first-class mail from Canada to foreign countries would much more than counterbalance any decrease in revenue likely to result therefrom;

Therefore be it resolved: That the Ontario Associated Boards of Trade and Chambers of Commerce petition the Dominion government to put into force at the earliest possible date the minimum rates on first-class mail to foreign countries adopted by the Universal Postal Union Congress, in order that Canadian exporters may be placed on the most favorable basis with their competitors in foreign countries.

Trade With the West Indies.
By Niagara Falls Chamber of Commerce: Whereas there is a large consumption of tropical products in Canada, and many of these products are grown in the British West Indies; and

Whereas the British West Indies provide a large market for the products of the fields and factories of Canada; and

Whereas it is physically impossible for these two countries to compete in trade; and

Whereas it is desirable that the seaport trade of the Maritime Provinces be developed and increased by the exchange of goods between these British countries;

Therefore be it resolved: That the Ontario Associated Boards of Trade and Chambers of Commerce go on record as approving the principle of the recent treaty between Canada and the British West Indies and urge that the principle be extended until both countries enjoy a free exchange of all products.

Federal Taxation.
By Toronto Board of Trade: Whereas the taxation imposed upon income and capital by the Dominion government has proven to be excessively burdensome; and

Whereas such taxation is (a) depriving industry of the resources necessary for expansion and stability;

(b) preventing investment in new industries;

(c) destroying individual initiative and enterprise;

(d) producing less revenue because of the withdrawal of capital from productive business for investment in tax-exempt securities or for other uses to avoid the imposition of heavy surtaxes and super-taxes; and

Whereas the present rates of taxation imposed upon income and capital in the United States are measurably lower than similar taxation in Canada; and

Whereas the more favorable rates of taxation in the United States, as compared with Canada, encourages the exodus of Canadians to that country; discourages the investment of capital, either domestic or foreign, for the development of our resources and other business enterprises; and acts as a deterrent upon desirable immigration; and

Whereas reduced taxation upon income and capital in this country would so stimulate development enterprises and business generally as to materially increase the revenue from tax collections, or at least avoid further reductions;

Therefore be it resolved: That the Ontario Associated Boards of Trade and Chambers of Commerce petition the Dominion government to introduce the necessary legislation at the next session of Parliament to:

(a) Reduce the Income Tax rates to, at least, the rates now in force in the United States;

(b) Exempt Income Tax paid to countries other than Canada, provided that all income derived from sources outside of Canada must be included with income derived from within Canada; and further that, in any event, the taxpayer's income tax shall not be less than if computed on income derived from Canadian sources alone;

(c) Exempt from Income Tax carrying charges on non-dividend paying securities;

(d) Exempt from Income Tax taxes paid to Municipal or Provincial governments upon income also assessable by the Federal government;

(e) Permit, for purposes of assessment, the averaging over a period of three years of the incomes of persons, firms, or corporations engaged in business;

(f) Authorize the publication of rules, regulations and interpretations of the various clauses of the Income War Tax Act with instructions for calculating the assessment and the placing of these at the disposal of the taxpayer in convenient form;

(g) Repeal the Corporation Income Tax;

(h) Repeal the Stamp Taxes on cheques, notes, drafts, etc., etc., as now imposed under the Special War Revenue Act.

By Hamilton Chamber of Commerce: Whereas taxation, as imposed by the Dominion government,

has remained practically without change since the annual meeting of 1924; and

Whereas the expressions contained in the resolution passed by the Ontario Associated Boards of Trade and Chambers of Commerce at that time still hold good; and

Whereas it must be realized that there can be little reduction in the income tax or any other tax until such time as the Government of Canada are able to considerably reduce the expenditures of the country;

Therefore be it resolved: That the ideas expressed in the resolution of 1924 be re-affirmed and that the Ontario Boards of Trade and Chambers of Commerce should urge the Government of the Dominion of Canada to endeavor by every possible means to substantially reduce the expenditures of the country to enable, in the near future, a reduction of not only income tax, but the abolishment of the stamp tax upon cheques, drafts, receipts, etc., as now imposed under the Special War Revenue Act; and

Be it further resolved: That as a substantial portion of the expenditure of the country is under the control (subject to Parliament) of the Civil Service Commission, that the Government be urged to give careful consideration to the various reports upon the subject, with a view to creating economies in the Civil Service; and

Be it further resolved: That the Government authorize the publication of the rules, regulations and interpretations of the various clauses of the Income War Tax Act, together with instructions for calculating the assessments, and that these be placed at the disposal of the tax-payer in a convenient form.

Term Contracts for Electric Power.
By Welland Board of Trade: Whereas the present policy of the Ontario Hydro Electric Commission, in refusing to grant contracts for power for industrial purposes for a longer term than yearly contract at an unfixed rate, makes it difficult and even impossible to interest capitalists and manufacturers in locating and investing in Ontario;

Therefore be it resolved: That the Ontario Associated Boards of Trade and Chambers of Commerce approach the Ontario Hydro Electric Commission and the Provincial Government with a view to procuring such revision of policy that will permit of the granting of term contracts for power for industrial purposes at fixed rates in conformity with the policy of private power companies in other parts of Canada.

Land Tax Discussed.
At a rally held here in the interests of E. J. Sexsmith, Progressive candidate for Prince Edward-Lennox, Joseph Haycock of Adolphustown took up the declaration made a few days ago by the Conservative candidate, John Hubbs, to the effect that a man would "be a fool to put forward any such taxation scheme" as has been attributed to him. Mr. Haycock stated that when Mr. Hubbs was later confronted with a copy of Hansard, he had to admit that he advocated on the floor of the house that the income and sales taxes be done away with, and that a land tax, collected through the municipalities, be substituted therefor. Mr. Haycock showed conclusively that a land tax large enough to furnish an equal amount of revenue would amount to two dollars per acre annually on every acre of cultivated land in Canada.

Chance for Women.
London Gaiety: The proposed new forty-eight word alphabet will probably enable a good many women to say things they have been wanting to say all their lives.

Paving of the "missing link" of Dundas street west between Hagan and avenue and the city limit at the west in Belleville will be laid this autumn by the Standard Paving, Limited.

Detroit Free Press: After all, the United States isn't in a very good position to sneer at China because it is overrun with bandits.

RADIO

FRIDAY, OCTOBER 30th.

CKAC, Montreal, (411).
