READY FOR CONVENTION OF BOARDS OF TRADE

The Speakers for the Banquet to Be Held on Thursday Evening.

The convention of the Associated Boards of Trade and Chambers of Commerce of Ontario promises to be well attended on Thursday and Friday. Already a great many delegates have announced their intention of coming and have secured hotel reservations. There will be five delegates from Smith's Falls and Ottawa expects to send four or five representatives, also the mayor of that city and several members of the Board of Control expect to comup Thursday for the banquet.

Napanee will send fifteen or twenty representatives to the meetings and the banquet and Belleville and Peterboro will also be represented The western men will come down on Wednesday night in a few sleepers and will be enabled to remain on the cars here until early Thursday morning. These sleepers will also be available for them on the return trip Friday night.

It is expected . that among the speakers of the banquet will be Mr William Phillips who will bear greet ing from the London, England, Canadian Chamber of Commerce. Mr Lorne Campbell, who has planned big water development in Northern Ontario for the benefit of the Great Lakes, will tell the story of the operation and Principal Taylor will also speak. 'It was hoped that the Hon. W. F. Nickle would be present but he has found it impossible to be

There will be community singing led by the Kiwanis and Rotary Clubs and an orchestra will play during evening. Several prominent members of the executive council will make a few brief remarks.

The executive council is expected to arrive in the city this afternoon from Toronto and Ottawa on 5.15 C.N.R. express, and they will he entertained at dinner at the Frontenac Club at 7.15. Mr. Thomas Marshall, Toronto, is the efficient secretary of the organization.

LETTERS To The Editor

Mr. Cohen Replies.

Kingston, Nov. 4 .- (To the Editor): I notice in the press that several of our city fathers gave me considerable of their time and attention at the Council meeting Monday evening. I hope you will also grant me a little space in your valuable paper to thank the Council for the free advertising it afforded. The Mon-Battery Company certainly needs it, as the business we get in Kingston leads me to believe that very few people know that there is a battery factory here.

With reference to the statement that we are employing outside labor and paying starvation wages, I would like to inform you that we have not imported anyone. Unfortunately it is not necessary to go out of Kingston to look for men, there are too many idle in the city now, and we give them the preference because they spend their money here. The the police court on Wednesday morncompetition among the men for jobs ing-that of being intoxicated in a leads them to lower their wages, and public place, was dismissed, as the we give them all they ask for. We evidence could not prove that the pay good masons 80c and carpenters men were in a public place, but the 60c and 70c; rough carpenters are accused were given some good adgetting as low as 40c. As the men vice by the court. are working nine hours, earning \$3 .-60 a day, I believe they can live comfortably on it. I wonder how Alderman Driscoll, the champion of the working man, can stand by and see laborers working for the city. digging sewers, the hardest and dirtiest work, for 30c an hour. Doesn't

ter, mason, or stone cutter? I would ask Ald. J. Fife Johnson if he furnishes his customers with more fish and chips than they ask

I might inform them that I started in Canada as a working man at 75c a day, but I have gained considerable experience and have learned that you must prove the value of the commodity you have for sale. whether labor or merchandise. It is also necessary to try and increase your market. The statements made in the Council the other night, and the number of strikes are driving away the demand for labor from Kingston. As Mr. Driscoll is one of our best aldermen and is well thought of, he can help to create the demand for labor by urging Kingston people to give preference to home-made products.

There are more Kingston-made batteries sold in Gananoque than in Kingston. At least 200 of our batteries are sold in Hamilton every month, and over a thousand in the City of Toronto. The transportation charges on these is about \$400 a month. If money was our only object, where would the Monarch Battery Company's factory be? What would the city do with the forty or fifty men we are employing? The city would have to provide about \$1 .-000 a week that we are paying now

or we would lose many citizens. Our application for fixed assessment if granted will save us about \$200 a year, as we would have to pay school tax on the assessed value the property. Considering that we pay about \$4,000 a year taxes now, \$200 is an insignificant amount, but if our citizens will look upon our venture with favor there is every reason to expect a much larger factory by next spring as we are negotiating now with several

business friends outside who may invest a considerable amount in our company and at least treble our business by next spring. This would mean employment for 100 or 150

> Yours truly, -I. COHEN.

HOME FOR FRIENDLESS WOMEN AND CHILDREN

Report on the Year's Work-Mrs. Macnee is Re-elected President.

The annual meeting of the Home for Friendless Women and Children was held on Tuesday afternoon. Reports were read by the secreetary and treasurer. The following officers were elected: Honorary president, Dr. A. E. Ross; president, Mrs. W. H. Macnee; first vice-president, Mrs. D. G. Laidlaw; second vicepresident, Mrs. W. H. Robinson; secretary, Mrs. E. J. B. Pense; recording secretary, Mrs. G. Lockett; treasurer, Mrs. G. A. McGowan.

The president's report was as fol-

"During the year 50 were admitted, 35 children and 15 adults. Five were adopted into splendid homes, 3 in the city, 1 in Toronto and 1 in Napanee; 2 were transferred to the Orphans' Home and 6 died. Nothing could have saved the lives of these little ones. They came to the home in a delicate state and were really cases for the hospital.

"At present there are 13 children and 5 adults being cared for. Five wards of the Children's Aid Society have been sheltered this year and are with us yet. Several others were given temporary shelter. We would like to enter into some agreement with the Children's Aid Society to have their accounts paid each month. This would be a great help to us, as, of course, we find it extremely difficult to finance the home and had it not been for the Ada Strachan bequest we could not bave carried on.

"Several rooms had to be papered and painted, and a small dining-room was made in the basement by putting a partition in the furnace-room. This saves a great deal of work, as there is a basement kitchen and no

'The children are all well and healthy, this is certainly due to the careful attention Dr. Day gives them, and on behalf of the committee I would like to express our appreciation to him for giving so much of his valuable time to their wel-

"Our matron, Mrs. Grier, is very efficient. She takes a personal interest in the management of the home and has a kindly influence over all the inmates.

"We thank our many friends for their Christmas donations. Never have they been so generous, and we hope this coming Christmas when the bags are sent out they will come back to the home well filled.

"In concluding I want to thank the committee for the wonderful way they work. When things look discouraging they are so ready to respond financially and otherwise, so enabling us to continue the good work of caring for those less fortunate than ourselves."
