She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. L M. Parks, Consecon, Ont., writes:- "I had heart and nerve rouble, and became so short of breath I could hardly do my daily housework, and was so nervous could not think of staying alone, as every little sound I heard felt like a shock to me.

I Saw

after taking the second one I am now feeling like a different woman." This preparation

has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

Will the Eyes of Children Change?

Not at all likely. An error of vision caused by an abnormal shape or size of the eyes will never change of itself. Glasses do not change the error. They neutralize it, or cause the eyes to act as if the error did not exist. Don't hope that your children's eyes, if abnormal will become normal. At your command any day.

R. Arthey, Optometrist

tinued until I had taken six boxes,

LONDON LETTER

London, Oct. 24.-Opinions may differ profoundly upon the wisdom or otherwise of a Home Secretary making important announcements from a popular platform. And some people think Sir William Joyson-Hicks too prone to talk before acting, like the famous Pickwickian hero, who was continually "just about to take off his coat" with belligerent intent. But Sir William's statements about Moscow's policy of following up industrial strikes by military action, though quite a Bolshevik platitude to serious students of Leninism, is well emphasized by the recent experience of Paris. Though the Red strike failed badly, it led to violent scenes, and over 150 casualties in street fighting. The fact that fifty of these are policemen, wounded chiefly by revolver bullets, suggests that the French-Communists have, obedient to Moscow's parental tuition, tried to combine striking with "military action." And Paris is not the only capital where there are a great many too many pistols "loose."

Conning-Towers of Whitehall. Although the Admiralty Building in Whitehall has reached its bi-centenary, the apartment in which the Lords Commissioners met two centuries ago is the same as during the Happy weeks may be spent in Great War, and is still the board ever, was able to secure passage in the eastern market, and in a little great resort hotels, either along the room. Mr. Churchill has told us coast or inland. To these alluring "There can be few purely mental winter resorts the Canadian Pacific experiences more charged with cold Railway offers most excellent ser- excitement than to follow, almost from minute to minute the phases of a great naval action" from the Let our representative plan your Admiralty's Whitehall conningtrip and arrange attractive itinerary towers. "Out on blue water, the to California, across Canada, through fighting ships, amid the stunning Vancouver and Victoria, B.C. Can- detonations of the cannonade"-"In Whitehall, only the clock ticks, and quiet men enter with quick steps, laying slips of penciled paper before other men, equally silent, who draw lines and scribble calculations, and pooint with the finger, or make brief subdued comments." Rather like a newspaper office, in fact!

Queens of Old Renown. Mrs. Kendal, the distinguished actress, who charmed us 20 years ago in those fine Kendal plays, still keeps her enthusiasm for the theatre and "the" profession. Nor is she among those veterans whose cherished memories of the great past cloud their sympathy with and appreciation of the strenuous present. Mrs. Kendal's keen zest in modern life is fully shared by an older and even greater actress. Miss Ellen Terry seems to gain intellectual verve as she loses ever so little of her old physical elan. She is still, so many long years after Sir Henry Irving left us, a keen theatregoer, and enthusiastic about wireless as a medium for keeping in touch with stageland. But Miss Ellen Terry's once wonderful memory is no longer quite equal to mastering a "part." The last time she appeared on the stage, in a little vain to learn her "words."
