## 11926 LICENSE PLATES

They Are to Have Black Numbers on Light Grey Background.

Toronto, Nov. 20.-Automobile license plates for 1926, are to be issued earlier this year than last. Hon. George S. Henry, minister highways, stated yesterday that the new plates would be ready for distribution on December 15th, instead of February, as in previous years. The new plate has black numbers

on a light grey background, making it more conspicuous than last years for the purpose of law enforcement. Mr. Henry gave as one reason for the earlier date of issuing the licenses this year the desire to meet with the wishes of the dealers to encourage Christmas sales of cars. Although issued in 1925, there will be no extra charge for the new 1926 licenses, and they will be good till the

The early issuing will speed up the distribution of the plates, so that all motorists will have the 1926 num bers by the first of the year. For Mr. Henry also states that the time of grace will be shortened probably to one month or less, in comparison with the two months in other years.
