STOVE EXPLODED

An Exciting Time in a Home on Stuart Street.

A Stuart street resident learned from a practical demonstration that it is very unwise to light a kitchen stove when the hot water system is frozen.

During the time that the owner of the home was absent from the city, he engaged a young man to care for his furnace and stove. The young man was in the act of lighting the kitchen stove during one of the very cold days, around Christmas, when without warning, he became aware of the fact that the hot water system had frozen.

In less time than it takes to tell the tale, there was a terrific explosion, and when the smoke settled, it was found that the kitchen stove had been blown to pieces. The stove was so badly damaged that it will have to be broken up for scrap iron.

A piece of iron about a foot square was blown through the front door of the house and it is nothing less than a miracle that some person was not killed. The inside of the home was not seriously damaged.

Many citizens who were away from the city for Christmas returned home to find that the water pipes had been frozen.

ALVIN LEONARD ELIGH PASSES.

Alvin Leonard Eligh, Brockville, a well known roofing contractor, passed away Wednesday at the General Hospital where he had been a patient for a few days. The deceased was taken to the hospital on Sunday last to undergo an operation for an affection of the shoulder. He had developed pneumonia and despite every care and attention passed away, his weakened condition, due to war injuries, being unable to withstand the strain of the severe illness. The deceased would have been forty-one years of age had he lived until April 6th next. He was born in Brockville, son of the late Alvin Eligh, and besides his mother and wife, formerly Miss Sadie Peterson, Napanee, he is survived by two sisters and three brothers.

The conference re anthracite miners' strike adjourned until Tuesday next.

THE PILGRIM MOTHER

A statue to the Pilgrim Mother was recently unveiled at Plymouth Rock, Mass. Through her we honor every pioneer woman who endured privation and hardships that a nation might live. Shoulder to shoulder with her husband she built a home in the wilderness and reared her sturdy sons and daughters. She cooked and sewed. She spun and wove for her growing family and when they were ill, she brewed potent remedies from simple roots and herbs—such roots and herbs as are now used in Lydia E. Pinkham's Vegetable Compound—that reliable remedy for woman's ills.
