THE ELECTION OF WARDEN.

The general opinion seems to be that the wardenship of the county of Frontenac for 1926, should go to Mr. Samuel Jamieson, the well-known reeve of Storrington township.

Aside from the fact that Mr. Jamieson has been an active and valuable member of the county council, and is well-fitted for the position of warden, his many friends point out that Storrington township is the third highest rated township in the county, and it has not been honored with the wardenship for thirty-five years.

MR. NICKLE'S ANTI-HONORS RESOLUTION.

When Mr. W. F. Nickle introduced his resolution at Ottawa debaring Canadiana from receiving honors at the hands of His Majesty, he was expressing the feelings of the great majority of the Canadian people at that time.

A USEFUL FERTILIZER.

Fertilizers are made from fish by-products and yield much money. There are five of these plants in British Columbia. The fertilizer is used extensively in Japan, Bermuda and the West Indies.

COURTESY WIDELY ADVOCATED

Courtesy will stand quite at the top in the requirements of all city employees, says Mr. Charles G. Hanna, the incoming Mayor of Syracuse, N.Y.

THE LOCAL RAILWAY SITUATION.

In an endeavor to effect economies, the management of the Canadian National Railways has decided to make certain changes in the local train service in and out of Kingston, which will be of serious inconvenience to the people who are served by these trains.

BIBLE THOUGHT

SO OUGHT MEN to love their wives as their own bodies. He that loveth his wife loveth himself.—Eph. 5:23.

usually have the intelligence to understand that their actions constitute a large part of what may be called the personality of the firm.

The most serious change is that involving the train locally known as "The Tweed." What the reason is for advancing the time that it leaves Kingston by two hours and a half is not quite apparent.

Everyone realizes that economies have got to be effected on our national railways if they are ever to get on a sound financial basis, and no doubt the officials are not making any changes without having given them very serious consideration.

Kingston is not the only city affected. Brantford, too, has been hard hit by the policy of economies. The morning train has been taken of the Buffalo and Goderich run—a service which serves a profitable trading territory contiguous to the Telephone City.

MEETING THE DEBTS.

There is a movement in Belgium to ask every workman to work a half hour extra each week, his employer to pay overtime for the work, but the money to go to the state to pay back a loan for the stabilization of the Belgian franc.

Doublets it will not be done. People like to have the actual check for the taxes signed by somebody else, even if the real payment comes back to them.

Actually, that is the way most taxes, and especially those taxes for the rehabilitation of Europe, are paid. The workman works harder, or longer, and lives worse, and out of the product of labor for which he is actually not paid the debts are met.

McGill university has acquired a large Chinese library and may establish a chair in Chinese language and literature, so McGill students may soon be able to check their laundry bills, suggests the Hamilton Herald.

ALONG A ROAD IN FRANCE.

New York Correspondent: Coming along a road in France once during the war we halted at a railway crossing while a freight passed. The freight stopped, and as the men in charge of the train were British uniform, the question was naturally asked what was in the cars.

MATTER WORTH CONSIDERING.

C. O. Lobley, in Industrial Canada: Over one hundred and fifty magazines, published and printed in the United States, are coming into Canada. These publications have a total circulation of approximately twenty-five million copies per annum.

EMPLOYEES OF BUSINESS FIRMS, TOO.

Employees of business firms, too, are more courteous than they used to be. It is the exception for an employee to treat a customer, or one having business with the firm, in an unkind manner.

Pretty Doggie. London Advertiser: At a fashionable London wedding the bride had

When a Head Needs a Head: Hamilton Spectator: One thing the head of a department most surely needs and that is a head on his shoulders.

Doesn't Want to be a Suburb. Windsor Free Press: Trains as fast as planes are predicted. Thank you, on the whole we are as close to Toronto as we care to be.

Will Talk Anyway. Hamilton Herald: "Russia," says Tchitcherin, "will talk disarmament." The assurance is unnecessary. Russia will talk about anything.

Dearborn's Danger. Ohio State Journal: One danger with which the neighbors in Dearborn, Mich., are threatened is that Henry Ford may eventually become so interested in instrumental music that he'll take lessons himself.

Rome Has Fallen. San Francisco Chronicle: The worst has happened. Yesterday we saw a youngster lift his balloon trousers, while crossing a wet spot.

Got a Good Idea. Guelph Mercury: The weather man was extremely kind. The young folks of this age got a good idea of what nearly every Christmas Day used to look like when their parents, were young and free from care.

The Nimble British. New York Judge: Automobiles in the United States were responsible for 19,000 deaths last year, and in England for 3,000. The English must be a very nimble and athletic race after all.

Too Modern. Lebanon (Ind.) Reporter: Another man who believes the world is altogether too modern is the burglar who broke into an Indianapolis home and, groping in the dark, turned on the family radio, thinking it was a private safe.

Canada Needs People. Toronto Star: The country needs more people. Everyone is agreed on that. We have far more country than we are using.

Professional Luck. Exchange: Prof. Leacock is quoted in a recent weekly paper as saying that he has obtained, in the headship of his department at McGill University, one of the prizes of his profession, and can thus regard himself as singularly fortunate.

Where Are All the Old Jobs? Belleville Ontario: A little bit of snow helps to make a better picture of a Canadian winter, but where, oh where, is all the snow gone which used to cover the fences and make necessary temporary roads through the fields to avoid the pitchholes in the road?

Something Wrong. A portly gentleman stepped on the penny-in-the-slot scales on a railway platform. The machine evidently was out of order, for the needle registered only 60 pounds.

Fine Words. "Can a body eat with these things?" asked an elderly lady, looking at some dental plates.

A Little Different. Hub: What was that letter you just tore up? Wifey: Only from one of my relations, trying to borrow money.

Page St. Nick. A tenant wrote a long letter to his landlord complaining of the condition of his apartment and asking for improvements.

Commendable, But Is It Practicable? New York Times: Representative Sol Bloom, of New York, has had a bright idea, and it would be a beneficent one if he could carry it through.

Edward W. Barnard, in New York Times: You've heard that only girls and boys who strictly mind their p's and q's can hope to share those matchless jors.

Wit and Humor

Long Distance Love. Mary: What's the matter with Bob? Beth: Eye strain. The poor boy has fallen in love with a chorus girl and can't afford anything but gallery seats.—Answers.

Not Quality. Hewson: I failed to marry Heien because of her past. Humphreys: What was the matter with her past? Hewson: Too long.—Answers.

In It's Various Steps. "How do you find marriage?" "During courtship, I talked and she listened. After marriage she talked and I listened. Now, we both talk and the neighbors listen."

Welcome Relief. "Why do you feed every tramp that comes along," said the husband, peevishly. "They never do anything for you!"

"No," responded his wife, "but it's some satisfaction to see a man eat a meal without finding fault with the cooking.—London Mirror.
