MAKE IMMIGRATION HUMAN SAYS C. P. R. PRESIDENT: SIR THOMAS. WHITE PAYS HIM HIGH TRIBUTE

E. W. Beatty, C.C., Chairman of the C.P.R.

Sir Thomas White, Former Federal Finance Minister.

Addressing the Associated Boards of Trade banquet at Winnipeg recently, E. W. Beatty, chairman and president of the Canadian Pacific Railway, said that one of the most significant facts of the conference was the desire of men from all parts of Canada to discuss the country's problems from an economic and national point of view, free from the bewildering influence of political partisanship. "This," Mr. Beatty said, "leads me to the inevitable conclusion that the question of Confederation on the principles of national unity which guided the fathers in establishing it cannot be solved by political manipulation, but only by that mental attitude which comes from understanding and is the result of honest education.

In order to achieve national prosperity, Mr. Beatty advocated an extensive immigration policy to supply the man power necessary for the "largest undeveloped country in the world." "If I had any suggestion to make in respect to this question," continued the president, "I would suggest that we take it out of the field of statistics and place it in the field of human relations. We are apt to forget that the people who come to our shores are not so many hundreds or thousands of British or Continentals with or without settlers' effects. They are human beings, members of families who have torn themselves up from old homes, homes in some cases centuries old, to come and live in Canada, to be neighbours, if we are willing to be neighbourly, and to become good citizens if we only hold out a welcoming hand.

"We realize how great the wrench must be when we learn that some bring with them a handful of earth so that when the time comes for them to die in Canada it may be scattered over their coffins. I wonder how many Canadians, who have made the trek to the United States, have ever thought to carry with them a handful of Canadian soil. No immigration scheme for Canada can ever achieve success unless due allowance is made for such human factors."

On the same occasion Sir Thomas White, former Federal Minister of Finance, paid a high tribute to Mr. Beatty. Sir Thomas said that he had always looked upon Mr. Beatty as a representative Canadian who typified the qualities which are to be found in true Canadians. Mr. Beatty had carved his own niche in Canadian affairs and had made his own way in the world as in the manner of Canadians. As president of the Canadian Pacific Railway, Mr. Beatty occupied one of the highest positions in the Dominion and was absolutely unspotted by his enormous success, and Sir Thomas liked to think that in this the former was also a characteristic Canadian.

Referring to the improvement of the Canadian Pacific Railway, the former Finance Minister pointed out that the history of the Dominion and the Company were intertwined and could not be dissociated. The Canadian Pacific Railway had stood as the type of exemplary Canadian enterprise and courage in the face of apparently insurmountable obstacles. Sir Thomas also commented favorably on the good work the Canadian Pacific Railway had done during the Great War, and later on in going ahead with work, at the request of the Government, in order to give employment to soldiers who were returning after the war.
