BOARD WORKS FAVOR A BUILDING BY-LAW

The Matter Is Under Discussion at the Inaugural Meeting.

The members of the Board of Works for 1926, have in view the passing of a building by-law, which will tend to have new houses erected in the city, in uniform with other houses in the same block, with no encroachments on city property.

Ald. Boyd brought the matter to the attention of the Board, at its inaugural meeting on Wednesday afternoon, and it was given much discussion, and the general opinion of the committee was that such a by-law would be in the best interests of the city. It was pointed out that at the present time, new houses are erected which extend farther out to the street line than the houses close by, and therefore are a great setback to the other property, and at the same time do an injury to the newly erected houses. Cases were pointed out around the city where this is the case, and it was felt that some action should be taken. Legislation will have to be secured for the passing of the by-law proposed.

Ald. Reid brought the same matter up last year, and at the time city clerk Dr. Sands wrote to several cities, and is now in possession of data regarding by-laws enforced in these places, and this information will be provided special committee composed of Aids. Holder, Boyd, city clerk and the city engineer, will go into the matter and the city solicitor will be asked to draft a by-law.

J. B. Walkem, K.C., wrote the board regarding a claim for damages from John Ashley, who had his cellar flooded as a result of an overflow of the sewer on King street west. The matter was referred to the city solicitor and the engineer.

The question of the opening up of North Macdonell street was referred to the chairman and the engineer for a report. Some time ago the board moved to have the Anglin Lumber Company remove the lumber stored on Bay street, but it was reported, that the lumber has not yet been removed, although the matter was placed in the hands of the city solicitor. The board instructed the chairman and the engineer to interview the city solicitor in regard to the matter.

The chairman, Ald. Price, presided at the meeting, and the other members present were Mayor Angrove, Aids. Carson, Sargent, Boyd and Holder.
