Dr. J. C. Marrigan, dentist of Sydenham, very ably discussed "Our Educational Institutions."

The evening was thoroughly enjoyed by those present and was brought to a close with the singing of the National Anthem.

TAKING A SUNDAY NAP BUT WAS DISTURBED

Man Who Hit the Disturber Fined \$5 in the Police Court.

If you were at peace with all the world, and had arranged to take a long Sunday morning nap, how would you like to be rudely disturbed at 8 a.m. and told that you would have to get up?

A middle-aged man, who secured a room at a local rooming house on Saturday night, had this happen to him, and as a result of the action he took when disturbed from his slumbers, he was hailed before Magistrate Farrell on Tuesday morning, charged with assault. He admitted striking the man who broke into his room and told him he would have to get up, and was fined \$5 and costs.

"Are you guilty or not guilty," queried the cadi.

"Your Honor, I am guilty under the circumstances."

"What are the circumstances?"

"Well, your Honor, it was just like this. I have been asleep, in a sort of heart-to-heart talk with the magistrate. I was asleep at the time—or at least I was just dozing. I intended to sleep a little later, and it was Sunday morning. I think it was about 8 o'clock. I did not want to get up, and I did not think any person could make me get up early. This man pushed open my door in a very abrupt manner, and told me I had to get out of bed. He also pushed a chair in through the door. I told the man I did not know I had to get up. There was no notice posted up to this effect. I lost my temper and I hit him. I am sorry as I did not intend to do anything like this."

The magistrate stated that he would impose a fine of \$5 and costs or ten days, whereupon the accused stated that he was very sorry, but that he could not pay the fine, and would have to go to jail.

"What are you working at?" asked the magistrate.

"I am not in a position to do anything. I have been sick. I get pains in my side. I cannot do very much work, besides there is not much to do. Yesterday I got my first job in several months, but I was unable to do anything as I am in such a bad state."

"You should have thought about all this before you committed the assault," remarked the magistrate, in finally disposing of the case.

J. Spratt.

At 7:30 tonight in the Cathedral the office for the Dead will be recited. Many priests and other church dignitaries are here from all over the Archdiocese for the funeral of the late Monsignor Masterson and more will arrive tonight. It is expected that the big cathedral will be crowded to the doors for the funeral mass on Wednesday morning. Following the mass, the remains will be sent to Prescott where the Libera will be chanted and the funeral sermon preached by Rev. Father Nicholson.

PIGEON'S FOOT WAS FROZEN TO A ROOF

It Was Released and Flew Away—Another Half Frozen.

The Humane Society is ever busy. This morning, Mr. J. R. C. Dobbs, president of the organization, informed the Whig that a pigeon had been discovered with its foot frozen to the roof of the Golden Lion grocery building. A man was sent up with a ladder and he chopped the ice away, and off the pigeon flew, carrying a small piece of ice on its foot.

Mr. Dobbs reported that an up-town resident had discovered another pigeon almost frozen to death. He took it in and revived the bird, which has now found a good home.

Firemen Are Busy. Fire broke out at 12:18 Tuesday morning at D. W. McBride's, 72 Wellington street, where too strong a fire had been going, with the result that the stove pipes and the fire-board were burned. The damage was slight.

While testing the fire alarm boxes to-day, the firemen received a call from box 34 but on arrival at the corner of Bay and Montreal streets where the alarm was accidentally run from, the firemen discovered that there was no fire.

While answering a call on Monday morning a rubber boot was lost off one of the upper fire station trucks. Anyone finding the rubber boot would confer a favor by returning it to the upper station.

FIST FIGHT MARRED GAME AT BELLEVILLE

Quinte City Maroons Had Easy Time With Island City Team Monday Night.

Belleville, Jan. 12.—Opening the scoring early, Belleville Maroons had little trouble with Brockville C.N.A. A six here last night, winning by a 10-2 score. The period scores were 3-0, 7-1, 10-2. The ice was keen and the crowd large.

Belleville should have run up a bigger score, but for the performance of Murray, experienced net minder, the locals having twice as many shots on goal as the visitors.

Brockville, with a weaker team of homebreds than last season, lacked combination, were mediocre stick-handlers and weak and erratic shooters. After they became limbered, Belleville worked strong two and three-man combination for goals.

Hagerman and Saunderoock marred the otherwise clean game by a fist-cut exhibition near the end which gave each a five-minute rest.

Murray, in goal, Sheridan and Saunderoock were the best for Brockville. Goyer brothers and Whalen got good for Belleville with Frechette, a substitute, Sheridan's wrist was injured in the first, but he continued. Line-up:

Brockville—Goal, Murray; defence, Saunderoock and Sheridan; centre, Lorraine; wings, Frego and Higgins; subs, Christopher and Garrand.

Belleville—Goal, Boland; defence, Green and F. Goyer; centre, Al Goyer; wings, Hagerman and Whalen; subs, Frechette and Hunter.

Referee—Harold Farlow.

BUT BRITISHER FORCED HIM TO THE LAST ROUND.

Toronto, Jan. 12.—While Harry Greb of Pittsburgh, world's middle-weight championship, won a referee's decision over Roland Todd of England, European champion in that class, by a considerable margin after their twelve-round bout at the Coliseum last night, the Britisher did something that none of the three previous opponents of Greb in this city have been able to do—force the battle in the closing round.

Mr. P. F. Brockle, physical director of the Y.M.C.A., is pushing ahead a scheme for the formation of a O.A.B.A. group in which Kingston Y.M.C.A., five-time basketball team will be a member. Belleville, Kingston, and Queen's seconds have already joined the league and Peterborough, Oshawa, and R.M.C. are possibilities. An exhibition game will be played this evening, between the Y.M.C.A. and Queen's seconds at the Queen's gymnasium.

OFFICIALS OF THE KINGSTON O.H.A. club who accompanied the Kingston intermediates to Trenton yesterday, where they were beaten 3-2, stated this morning that the Trenton team was simply outclassed. YOUNG SCOTCHMAN FOUND DEAD IN SNOW

tion. Mrs. Thompson, in describing Mr. McDonald said that he would not speak to any body, and appeared to be of a very quiet disposition, spending the days in his room, only going out for his meals. It is not known where he had his meals, but Mrs. Thompson said that he spent very little time out of the house, coming back immediately after his meals, and employing his time reading magazines and books, of which he appeared to have a large supply. Mr. McDonald was of a very sober nature, and clean about his room.

Asked if he appeared to be in need of money and clothing, Mrs. Thompson said that he had paid his bill before he left, and that he seemed to be in comfortable circumstances. He was very well dressed and had a very polite manner. Mrs. Thompson had nothing but praise for the deceased, who she declared was a perfect gentleman in every way. Mr. McDonald never went out in the evenings, preferring to lead a quiet life. Another remarkable fact about the deceased was that he never received any mail and never seemed to make any acquaintances about the city, and he has never been seen in company with any friends. Mrs. Thompson was under the impression from several conversations with the deceased, that he had friends in Toronto, but beyond this she was left in the dark as to where he came from. To show how little she knew about the man, she stated that she did not even know his first name.

Mrs. Thompson was unaware that the deceased had left the city when he left her home Monday, as it was his custom to have his luncheon at 12.15. His suitcase was packed, but beyond this she had not the least idea that he was contemplating a move. Asked if she noticed anything peculiar about him when he left the house that morning, she said he seemed to be in excellent spirits, and beyond his natural gravity he was in a very pleasant mood, in fact more pleasant than he usually was. Mr. Thompson, when queried as to why she thought he had paid his room rent so soon, said: "I thought that he was going to leave for a few days to look for a job, and that he did not need his suitcase," but she could not state for a fact that this was his intention.

The Kingston police were notified and forwarded the suit case on to Napanee.
