- Heavenly body.
 - Similar to a frog.
 - Fertile spot in a desert.
 - Preposition of place.
 - Booty.
 - Act of setting too low a value.
 - Moose.
 - Like.
 - More awry.

Cold In Nostrils Quickly Subdued

Vaporize Catarrhose in Boiling Water.
Breathe the Medicated Vapor and Benefit Comes in a Few Minutes.

Simple to overcome colds by the CATARRHOSE METHOD. Put a saucupan of water on a stove. Add a half teaspoonful of CATARRHOSE to a pint of water, and bring it to a boil. Let the steam from the kettle fill the room, so that the medicated air is breathed in by the sufferer. You will notice an immediate result. The cough is relieved, the stuffed-up nostrils are cleaned, the COUGH, BRONCHITIS and COLD quickly disappear.

For adults suffering from GRIPPE, BRONCHITIS or CATARRH, this treatment is ideal.
For FIFTY CENTS you can buy CATARRHOSE in any drug store.

VERNON MACKENZIE
Famous Canadian Journalist, who has accepted a position as European Editorial Representative for the International Magazine Company and will travel extensively seeking for the extraordinary in magazine features. He leaves Mackenzie's Magazine shortly and will take up his headquarters in London.

THE ODDFELLOWS' INSTALLATIONS

At Mallorytown was a Very Pleasing Ceremony.
Mallorytown, Jan. 14.—In connection with Mallorytown I. O. O. F. Lodge 245 an interesting open meeting was held, on the occasion of the visit of D.D.G.M., James Scotland, who with William and Clarence Morris, Delta, assisted by brethren from Mallorytown, installed the officers in a very pleasing and efficient manner.

Three of the members of Mallorytown Lodge have completed twenty-five years membership in the local lodge, Albert R. Jordan, Egbert Avery and William Chick. The lodge presented each of these with a jewel. The following are the newly installed officers for the coming year: N. G. Stanley Green; V. G. Leon Hagerman; Rec. S. Ernest Crothers; F. S. David S. Clow; Treas. W. E. Summers; Warden, W. Avery; Con. A. Fortune; Chaplain, B. Ford Purvis; R.S.S. A. E. Jordan; L.E.S. Fred Guild; R.S.N.G. C. W. Clow; L.S.N.G. Gordon Quinsey; R.S.N.G. P. J. Purvis; L.S.N.G. W. A. Guild; O.G. Carl Burnham; I.G. J. Warren.

An impromptu programme of addresses, songs, etc., was followed by refreshments and the usual dance.

The Women's Institute met at the home of Miss Hulda Mallory, on Wednesday evening. In spite of the storm there was a good attendance. After the business was attended to an impromptu programme was put on. Refreshments were provided by the hostess of the evening, Fred Tennant and Rev. R. Calvert attended the meeting of the Kingston Presbytery in Sycamore Street United Church on Tuesday. James Greer is so far recovered as to be able to visit friends in the village.

Rockport Ladies' Aid.
Rockport, Jan. 12.—The first meeting of the Ladies' Aid Society, for the New Year, took place at the home of the vice-president, Mrs. Edward Andrew. After partaking of an appetizing dinner, the meeting was called to order by the president, Mrs. De Witt Williams. Seventeen members responded to the roll call. The election by ballot, of officers, then took place and the following were installed: President, Mrs. Metta Kirkwood; vice-president, Mrs. Edward Andrew; secretary, Mrs. S. Heald; asst. secretary, Mrs. A. M. Seaman; treasurer, Mrs. John Dickey; asst. treasurer, Mrs. S. Surpiff; corresponding secretary, Mrs. Alfred Salter.

An invitation from the pastor, Rev. A. Bishop, that the Ladies' Aid have dinner at the parsonage, Jan. 14th, was accepted. February meeting is to be held at home of Mrs. Jno. Dickey. A vote of thanks to the hostess was heartily applauded, after which the meeting was closed by Rev. A. Bishop.

English railways employ nearly 1,800 women as switchmen, crossing tenders, porters, painters, yardmasters and station agents.
More than 1,000,000 trees were planted by New York state during 1925.

NEWS OF THE FARM

Improved Incubation—Dryness in Poultry House Essential—Exports of Apples and Potatoes Heavy.

George H. Barr, Director of Dairying for Ontario, has been making some important announcements of late. Some time ago he announced that cream grading is to go into effect upon a province wide scale early next spring. This week he has something of importance for the cheese industry. "There are some factories in operation today that will not be running next year," he told the Eastern Ontario Dairymen at their convention. "Dirty, sloppy work cannot longer be tolerated, and factories which allow it must clean up or close."
This will no doubt seem hard to those directly affected, but it seems the only way to raise the general reputation of Canadian cheese and hold the overseas market.

Climbing Up.
With heavier production and exports, Canada bids fair to recover her old position as the largest exporter of cheese, a fact which no doubt Mr. Barr has in mind. Cheese exports for the twelve months ending October last were 23 per cent larger than in the preceding twelve months, while New Zealand's exports showed a slight decrease. Still more significant is the fact that Canadian cheese commanded during the past year an even larger premium than usual. Heavy milk production in Eastern Ontario is of course responsible for the rise in exports, while for the quality many agencies share the credit—care at the farm, good making methods, and government grading leading the list.

Improved Incubation.
A new idea in artificial incubation is making rapid headway, not only in Ontario but elsewhere. The principle is simply to heat the eggs by contact with the hen, rather than by radiation. An English experimenter named Atkinson was apparently the first to evolve the practice, which involves giving the eggs as nearly as possible the same conditions produced by the sitting hen—direct heating by contact from the top, and a difference of temperature up to 15 degrees between the top and bottom of the egg. Results of 97 per cent and over, with strong vigorous chicks, are claimed for the new method.

Dryness Essential.
Dryness is essential in the poultry house. Hens feel the cold more in a damp atmosphere than in a dry one. Closed houses are almost always damp and the moisture is absorbed by the walls and litter. As damp litter is unpleasant to the hens they do not take the exercise they require.
The only way to secure dryness is to provide ventilation, and even in cold weather to keep the ventilators open. Do not be afraid to give the hens plenty of fresh air, even though cold, as long as drafts can be avoided.

New Service Starts.
With the commencement of the new cattle boat service to Great Britain this month more satisfactory shipping conditions will be provided for Canadian cattle, according to H. P. Kennedy, leading exporter. An independent line is to operate exclusively in the cattle export business, with four steamers, each capable of carrying 1,128 head. Their fittings will be particularly adapted for cattle carrying and experienced cattle men will be employed as crew. This arrangement, says Mr. Kennedy, should eliminate shrinkage altogether, thus reducing shipping costs by from \$5.00 to \$10.00 per head.

Well Mated.
"Mr. and Mrs. Nallor are a remarkable pair. They make a splendid couple."
"Yes. She is so manly and he so ladylike."—Answers.

Perfectly Capable.
Father: Daughter, don't give that young man any encouragement.
Daughter: I don't need to. He takes it.—Answers.

CORNS

Lift Off—No Pain!

NEW CROWN PRINCE
Little Prince Michael, the son of the ex-Crown Prince of Roumania, who becomes heir to the throne because his father has renounced his membership in the Royal Family.

Seven Years and Lash.
Toronto, Jan. 15.—"You are convicted of the most horrible and unnatural offence that is possible, and people of this Canada of ours are determined this country shall not be made a happy hunting ground for such reptiles as you. I shed no tears in sentencing you," said Magistrate Brown yesterday, in passing sentence on Fred Ruston, aged forty-eight, convicted of an offence of the most serious nature.
"You will be sentenced to seven years in penitentiary and thirty stripes, ten after the first month, ten after the third month, and ten after the sixth month."
Ruston was taken below to the cells weeping and protesting his innocence.

Pass the H.P. please!

A common phrase in millions of British homes, signifying the popularity of H.P. Sauce.

There is an indefinable mellow fruitiness and piquancy in H.P. that everyone likes—that transforms ordinary fare, even "left-overs," into appetising meals.

It's the flavor that counts—the more you use the more you like H.P.

H.P. SAUCE

As used in the British Houses of Parliament.

What delicious Chocolate Cake!

An Old-fashioned Chocolate for a New-fashioned Generation.

Baker's Chocolate

Premium No. 1

Is most satisfactory for cooking and drinking; the first choice of good housekeepers and cooks.
