DESERTED CLUB
Dorothy Frooks has deserted her club in Washington. All members pledged never to marry, but she says she'll wed Schuyler Vanderbilt, of New York.
Gone Before.
Though he that ever kind and true, Kept stoutly step by step with you Your whole long gusty lifetime through Be gone awhile before, Be now a moment gone before, Yet, doubt not, soon the seasons shall restore Your friend to you.
He has but turned a corner—still He pushes on with right goodwill Thro' mire and marsh, by heugh and hill
That self-same arduous way— That self-same upland hopeful way, That you and he through many a doubtful day, Attempted still.
He is not dead, this friend—not dead But in the path we mortals tread, Got some few, trifling steps ahead, And nearer to the end, So that you, too, once past the bend, Shall meet again, as face to face, This friend.
You fancy dead.
Push gayly on, strong heart! The while You travel forward mile by mile He litters with a backward smile 'Till you can overtake, And strains his eyes, to search his wake

The Shoe on the Other Foot.
Springfield Republican: There is some irony in the recollection that only a few years ago British naval writers like Archibald Hurd were gravely warning us of the danger of friction that would come from governmental meddling with the merchant marine if the subsidy plan of President Harding was carried out; rivalry between ship-owners, it was argued, matters little, but rivalry between Governments was another matter. Now the shoe is on the other foot, and the reaction to the rubber restriction may breed caution.

ACID STOMACH IS DANGEROUS

Suffers From Indigestion or Stomach Trouble OUT THIS OUT
"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc. are caused nine times in ten by chronic 'acid stomach,' says a well-known authority.
Burning hydrochloric acid develops in the stomach at an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis accompanied by dangerous stomach ulcers. Don't dose an acid stomach with peppermint or artificial digestants that only give temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines.
Instead, neutralize or sweeten your acid stomach after meals with a little hot water and bicarbonate of soda. Not only will the pain vanish but your meals will digest naturally. There is nothing better than Bicarbonate Magnesia to sweeten and settle an acid stomach. It soaks up the harmful excess acid much as a sponge or blotting paper might and your stomach acts and feels fine in just a few minutes. Bicarbonate Magnesia can be obtained from any reliable druggist in either powder or tablet form. It is safe, pleasant, easy and pleasant to use, is not addictive and is not at all expensive.
