ROTARY FOR SQUARE DEAL IN BUSINESS

Addresses at Club Dinner by W. J. Cairns, Montreal, and Prof. Richardson, R.M.O.

Past District Governor W. J. Cairns, formerly of Ottawa and now of Montreal, was a guest of the Kingston Rotary Club at the weekly luncheon on Tuesday. In the course of a few remarks to the club he said that Rotary for some time had been stressing business methods. Rotary stood for a square deal in business, said Rotarian Cairns, and no matter how many activities the club had, if a customer went into the store of a Rotarian and wasn't treated right they would get a poor impression of Rotary. He urged the Rotarians to always do the very best for their customers and employees.

Professor L. N. Richardson of the Royal Military College was the speaker of the day and he told in a very interesting way of the trip of the hockey team from the R.M.C. to New York where it participated in the college hockey tournament held in Madison Square Garden. The cadets were entertained by the New York Canadian Club during their stay and Professor Richardson spoke very highly of the hospitable treatment which they received. The Canadian Club in New York is a very strong organization, he said, and they have splendid accommodations in the Belmont Hotel. Plans were on foot however, to erect a club building. Two facts which the speaker noted about the club that related it to Kingston were that the president was a graduate of Queen's and that both Kingston newspapers were to be found in its reading room.

Several young American officers who had played against R.M.C. while on the West Point team called to renew acquaintances and Ray Marchand, a former Kingston hockey player and now coach at West Point, also called, said the speaker. There wasn't much interest taken in the intercollegiate series, Professor Richardson said, and even when 3,000 people attended they looked lost in the Madison Square Garden, which accommodates 20,000. The best game in which R.M.C. played was that against Boston College, said the speaker, during which the score was even almost from beginning to end. Boston College scored the winning goal in the last minute of play.

Among other entertainments arranged by the Canadian Club were an evening at Charlott's Revue where the leading lady, Beatrice Lillie, was a former Belleville girl, and a trip to Vincent Lopez's famous night club. It was announced by President Roy Ward that the district governor would visit Kingston on February 10th. Thanks were tendered to the dance committee for their very successful work and also to Rotarian L. T. Best for the favors which were distributed to the ladies at the dance. Rotarian W. J. McCallum was introduced as the director who had been appointed to complete the term of Rotarian Leman Guild. The visitors present in addition to Professor Richardson and Past District Governor Cairns were: D. J. Rayside, Montreal; W. D. Earle, Brockville; and James Cokers, Belleville. The attendance at the meeting was almost 100 per cent.

THIRSTY MAN IN SEARCH OF 4.4 BEER

Stopped Young Man at Midnight and Asked Where He Could Get a Bottle.

The much abused 4.4 beer or 4 point 4, as it is referred to by many, came into its own last night. A young man who was on his way home, about midnight, was accosted by an elderly man, who appeared very much excited.

"Where could I get a drink of this 4.4 beer?" asked the elderly man.

"Pretty late for the hotels to be serving it now," said the young man, rather startled to have such a request made to him, as so many are saying such terrible things about Ferguson's new beer, which drinkers do not even regard as near beer.

As to whether or not the thirsty fellow got his drink is not known, but he told the young man that he would try his best to get a bottle.
