GAS IN THE STOMACH IS DANGEROUS

Recommend Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion.
Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."
Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.
It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any drugstore a few boxes of Blasted Magnesia and take a teaspoonful in a quart glass of water right after eating. This will drive the gas, wind and most right out of the body, sweetens the stomach, neutralizes the excess acid and prevent its formation and there is no sourness or pain. Blasted Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

THE LATE HENRY FILSON.

Passing of Stella Boy is Deeply Regretted.
Stella, Jan. 25.—On Tuesday, January 19th, Henry Filson, the youngest son of Mr. and Mrs. Robert Filson, of Stella, died at the home of his parents after a brief illness. The funeral service was held on Wednesday afternoon in St. Paul's Presbyterian church of which he had been a member. His six cousins, Ernest Filson, William and Harold Marshall, and Kenneth, Wilfred and Douglas Miller bore the coffin, which was covered with beautiful floral tributes, and Stirling Glenn, a boy friend, drove the team which carried his comrade's body to the church. The funeral sermon was preached by Rev. Mr. Duncan, of Kingston.

FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour, acid, gassy stomach, and relief will come instantly.
Better Than Soda
For fifty years genuine "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three times as much acid in the stomach as a saturated solution of bicarbonate of soda, leaving the stomach sweet and free from all gases. Besides, it neutralizes acid fermentation in the bowels and gently urges this souring waste from the system without purging. It is far more pleasant to take than soda.
Insist Upon "Phillips"
Each bottle contains full directions. Any drug store.
