

SHOULD DISCONTINUE ALL THE NET FISHING

Until Survey is Made of the Waters in County—Game Association Meets.

A meeting of the surviving members of the original St. Lawrence River Fish and Game Protective Association...

THE FLAPPER OF 1925

She is an active girl—dancing—swimming—playing tennis—golf—motoring and hiking—often on the go eighteen or twenty hours out of every twenty-four.

Mr. C. H. Webster, who was formerly the secretary of the original association, told of how the association had been formed and what steps had been taken to have it inaugurated...

Mr. Webster spoke of the wonderful attraction for tourists that the fishing throughout Frontenac County was, but it was threatened by the actions of anglers using the hoop nets...

Rev. J. D. Boyd, treasurer, stated that the membership had been greatly increased of late. There was in the treasury about \$106. It was decided to change the name of the

St. Lawrence River Fish and Game Protective Association, to the Frontenac County Fish and Game Protective Association, and under this the following were elected officers for the coming season:

Honorary President—Dr. Edward Ryan, Mayor Thomas Angrove, Principal R. Bruce Taylor.

President—Dr. A. C. Neish. Vice-president—A. H. Fair. Secretary and solicitor—C. R. Webster.

Treasurer and organizer—J. D. Boyd. The directors from the city were elected as follows: J. M. Theobald, J. B. McGill, W. P. Peters, R. Robinson, C. Litton.

Mr. Webster presented two resolutions for consideration, the one for the changing of the name of the association, and the other as follows:

"That in the opinion of this association all commercial net fishing in the waters of the County of Frontenac should be discontinued until a complete survey is made of the waters of the county with a view to determining which waters are suitable for game fish and which are more suitable for mixed fishing."

"That in our opinion, if it is necessary to use nets to remove coarse and scavenger fish for the benefit of the sport fishing, this should be done by officials under government supervision."

"That in our opinion one of the greatest attractions for Canadians and tourists is good fishing, and that every effort be put forth to increase the fish in our waters suitable for angling."

The above resolution was unanimously passed, and it was decided to have the officers and Dr. A. P. Knight present the resolution to Hon. Charles McCrea, Minister of Marine and Fisheries today at the meeting in the Dairy School.

A short address was given at the meeting by Dr. Edward Ryan, in which he urged the better preservation of the game and fisheries throughout the county. He compared conditions of today with a few years ago, and pointed out that there was a great depletion. His short talk was to the point and strongly urged action.

An address was also given by Dr. A. P. Knight, on matters of fishing; his talk also being very interesting.

SALVATION ARMY WORK CONDUCTED IN CHINA

Told in an Interesting Address by Capt. H. Littler.

The rapid advance of the work of the Salvation Army in China since it was commenced in 1917, was the outstanding fact brought out in a very comprehensive address given by Capt. H. Littler, recently returned missionary from China, at the Salvation Army Citadel Tuesday night.

In commenting on the revolution, which has been going on in China for the last two months, Capt. Littler attributed all the trouble to the Bolsheviks, who incited the students against the missionaries. The Chinese government was protecting the missionaries.
