**ASK COUNTY COUNCIL
TO HELP WITH GRANT**

Delegation From Kingston and District Tourists' Association Present Case.

A delegation from the newly-formed Kingston and District Tourists' Association waited on the County Council on Wednesday afternoon, and asked for a grant of \$350. Mr. E. L. Martin, president of the association, presented the case to the council, and Mr. H. D. Wightman, the secretary, explained an illustrated booklet which the association proposed issuing. Mr. P. B. Chown and Mr. Howard Kelly were also in the delegation.

Mr. Martin told the council that the Kingston and District Tourists' Association was in affiliation with

the Tourist Association of Ontario, which was carrying on an extensive campaign to bring tourists to Ontario. The Ontario body intended to raise \$30,000 this year, to be used outside of Ontario, to attract tourists. Fifty dollars of the grant asked from the County Council would go towards this, but the remainder would be used to take care of the tourists while they were in Ontario. The Kingston and District Association had taken over the management of the motor camp at Lake Ontario Park, he said, and they would try to run it in such a way as to induce tourists to stay several days in this district, instead of one. The council was also to appoint a representative to the Kingston and District Association.

Mr. Wightman explained that the city was issuing a booklet advertising the County of Frontenac and that this booklet would be distributed to all tourists at all ports of entry into Ontario. It would describe the City of Kingston and also lay stress on the scenery of the country. The warden promised that the council would give the request every consideration.

When the report of the committee named to strike the standing committees was presented by Councillor Sibbit, Councillor Pike of Clarendon and Miller, suggested that the finance committee was perhaps the most important, and that it should be composed entirely of men who have had previous county council experience. This view was not generally shared, however, and Councillor Kennedy remarked that the members of the committees were chosen for their fitness and that perhaps some of the new members were better qualified to act than some who had more experience.

On motion of Councillors Sibbit and Spankie, the report as published last evening, was adopted.

**CONFEDERATION LIFE
MAKES BIG PROGRESS**

The Annual Report Shows Material Increase in Business Last Year.

The report of the directors of the Confederation Life Association presented at the annual meeting in Toronto on January 19th for the year 1925 shows one of the best records of this solid, old company and evidences healthy progress in every department.

In commenting on the general financial outlook, Mr. C. S. Macdonald, the general manager, noted the results of the excellent crop in the west in heavier mortgage interest payments and stated that one of the chief needs of the country would appear to be a sound immigration policy whereby a reasonable number of good agricultural settlers may be secured and placed on the land.

The very material increase in new business for the year, not only in Canada and Newfoundland, but in Great Britain and in Cuba, Central America and the West Indies, is an evidence of the strong agency organization of the company. The increase in all departments of the company's business is excellent and is outlined in their statement of the past five years record which appears on another page of this issue to-day. The company wrote over 40 millions of new business and their total business in forces at the end of 1925 was over \$208,000,000. The net revenue from premiums and annuities totalled \$8,520,053, and the net revenue from interest and rents amounted to \$2,354,109. The surplus earned on the year's operations amounted to \$1,528,001. The total assets of the company at December 31st, 1925, stood at \$46,179,252.

During the year there was paid to policyholders and beneficiaries in death claims, matured endowments, profits, and so forth, the sum of \$4,094,239. The total amount held or paid to policyholders and beneficiaries amounted to \$97,336,711. The investment company's trust funds have been carefully supervised and during the year advantage was again taken of the opportunity to dispose of short dated bonds yielding low rates of interest for reinvestment in first-class securities yielding higher rates of interest. The rate of interest earned for the year on the main net ledger assets was 5.26 per cent, which is excellent under present conditions with falling rates of interest on investments in all classes of securities.

The branch office of the company for Kingston and district is under the management of Mr. A. J. Moffitt, who, with representatives of the company situated at all the main centres in the district. Mr. Charles E. Taylor has recently been appointed a representative of the company in Kingston.

A gas mask has been developed that produces its own oxygen.
