Old Into New

Many a woman is wearing her old style, heavy, wide, wedding ring, not knowing that her ring can be reduced in size and engraved, and in every way made just as attractive as the modern ring.

We have a process of doing this without changing the ring from its original condition.

MOTHER AND DAUGHTER BANQUET AT NAPANEE

Dr. Annie Ross of the Macdonald Institute, Guelph, the Chief Speaker.

Napanee, Jan. 29.—The second annual Mother and Daughter banquet of the Napanee branch of the Women's Institute was held in the Masonic Hall on Thursday evening. Covers were laid for about 240 guests. The hall was decorated with multi-colored lights and cast a soft glow over the tables which were very pretty with Institute colors of blue and yellow and candelabras of the same shades. The many guests did ample justice to the splendid repast which the mothers had provided. Throughout the evening the ladies' orchestra rendered delightful music.

After the banquet, Mrs. W. J. Shannon led in community singing, and then the toast mistress, Mrs. Alpine Woods, President of the Women's Institute, proposed the toast to the King, Mrs. George I. Perry proposed the toast "For Home and Country," the motto of the Women's Institute, which was responded to by Mrs. Shore Loyes. Miss Dwyer then sang "O Canada." The toast to "Our Mothers" was splendidly proposed by Miss Eileen MacCormack and responded to by Mrs. Laughland, after which Miss Dwyer sang "Mother Macree."

Dr. Annie Ross of Macdonald Institute, Guelph, was the chief speaker of the evening. She complimented the Napanee branch of the Women's Institute on its fifth birthday and its growth from 25 members to 160 at the present time. The problem which faces Canadian mothers today is to get the mothers and daughters together and this was being accomplished. Association was the greatest thing in the world. Fellowship is considered greater than service. The three dearest words in the English language are "Jesus, Mother, Home." The three phases of life which Dr. Ross emphasized are Love, Beauty and Truth, and the mothers of today should try and develop all three.

Mrs. George Switzer moved a vote of thanks to Dr. Ross, and to all those who had assisted in making the evening a success. Mrs. Ella Wagar seconded the motion, after which the meeting closed with the National Anthem.

Mrs. J. E. Robinson and Mrs. Ralph Sills entertained a number of friends on Wednesday at five hundred. Eight tables were in play and the pretty souvenirs were won by Mrs. Spencer and Miss Herrington. Mrs. Percy Laidley entertained on Tuesday evening at euchre when the prizes were won by Mrs. Ralph Sills and Mrs. E. J. Pollard. Mr. and Mrs. McPherson both carried off the lone-hand prizes.

DECIDES THAT REGIS IS TO BE RETURNED

(Continued From Page 1) sentenced to three years in the Iowa penitentiary, also a document to Mr. Tabbs to see that Regis was taken into custody and surrendered to the proper authorities in the State of Michigan.

Mr. Nickle contended that there was nothing in the list of extraditable crimes about escaping, and he could not see where Regis could be extradited. He pointed out the severity of the sentence of from three to fifteen years for stealing a second-hand pair of trousers and three dollars.

Judge Lavell's Remarks. Judge Lavell stated that what he had to go by were two things, whether or not this was the man and if his case was extraditable. Regis was not here charged with house-breaking, theft, or anything else. He has been convicted and the penalty imposed and the penalty had not been finished. Regis had served only thirteen months of his sentence. If he were returned he could not be tried for anything else.

Mr. Rigney stated that it was not a question of nationality or severity of the sentence. Regis was being tried as to whether or not he should be extradited. He contended that it had been established that Regis was the man wanted.

Judge Lavell, in giving his judgment, stated that Regis that he had been charged with having been convicted of burglary. The certificates from the United States had been forwarded and showed Regis to be the man. The fact of nationality did not come into the question and he could not see where he had the right to do anything but surrender him to the United States.

"It is my duty to inform you," said His Honor, "that you shall not be surrendered until fifteen days and you have the right of habeas corpus if you so desire to take advantage of it."

Mr. Nickle stated after the case had been heard, that it had not been decided whether habeas corpus proceedings would be carried out. He said they had fifteen days to decide and the question would be considered.

GANANOQUE

Gananoque, Jan. 29.—Miss Kathleen O'Brien, graduate of Hotel Dieu, Kingston, left today for Brooklyn, N.Y., to take post graduate work at Greenpoint Hospital in that city. She will spend a couple of days en route with Mrs. Jack McLellan, Montreal.

Mrs. W. H. Britton left yesterday for Ottawa where she will be the guest of Dr. and Mrs. H. Barnes.

The annual tea meeting at Maple Grove on Wednesday evening was a success. Over 250 people were there for the tea, which was an excellent one as usual. Charles J. Cooke the entertainer from Ottawa gave an exceptionally fine programme.

The winners of the prizes at the Golf Club bridge Wednesday afternoon were Miss Margaret Edwards and Mrs. C. C. Skinner.

St. Andrew's annual congregational meeting was held on Wednesday evening, and reports as presented were most satisfactory. Rev. Mr. Kidd presided. D. A. Mitchell was appointed secretary and the same committees as last year were re-appointed. One nice feature of the meeting was the increase in the salary to Mr. Kidd of \$300, making his salary now \$2,000 per annum. J. A. Thomson was added to the management committee. All societies show a surplus in the treasury of each, so that St. Andrew's can be reported as being in a flourishing condition. Next Wednesday is the date of their annual tea meeting which brings a big attendance from all parts of the surrounding country, as well as the town.

J. A. Johnston, Steel Company of Canada, Montreal, is in town for a couple of days. Being a former resident of our town, Mr. Johnston is combining a little pleasure with business in renewing old acquaintances.

Usually there are too many middlemen between the dollar and the hearth.

Some people manufacture extenuating circumstances to fit the occasion.

LETTERS To The Editor Of The Whig

Calls It Creed Feud.

Sir:—Last Easter, considerable time was allowed at the Ontario Educational Association 1925 convention in Toronto for the discussion of the subject, "Religious Instruction in Public Schools." I have made a careful study of the "propaganda" of the Ontario Educational Association, particularly the trustees' and ratepayers' division. I concluded some time ago the objects are to destroy the one-room school house, three-trustee system and lady teacher, and could quote statements from school journal to prove my contention. Later it has developed into a further demoralizing scheme of making a greater gulf between the different religious factions, already it has been advertised that the discussion on religious instruction in schools is to form an important part in the coming Easter convention. The question is: Are the ratepayers of Lennox and Addington going to send delegates to the O.E.A. convention, at the expense of \$20 or \$25 each, to listen to the funeral dirge of the rural school house, three trustees, lady teacher, and the beginning of a creed feud in our education system?

—H. M. JACKSON.

"Happy Days"
Just add this sparkle to your morning glass.

Here is the way to happy days, to fitness and good cheer. It is saving millions of dull days, of lost days.

The way is this: On rising drink a glass of water, hot or cold. That washes the stomach and fits it for food.

Add to the water a little Jad Salts. That makes an effervescent drink. Jad Salts are made from the acids of grape and lemon, plus lithia, etc.

Right after breakfast comes complete relief. The poisons and wastes are eliminated. That which depresses, that which makes you unfit, is gone.

It's a wonderful experience. At 7 o'clock one may be cross and dull, may hate to face the day. At 8 o'clock one is cheerful and fit, starting the day with joy.

The way is easy, pleasant, prompt. It is harmless, and it aids the stomach, the kidneys and bowels.

You will always use it when you try once.

Ask your druggist for Jad Salts today.

JADSALTS

FRONTENAC WARDEN TENDERS A BANQUET

To the County Councillors and a Number of Other Guests.

A dinner was tendered to the members of the County Council and a number of guests by Warden C. J. Graham at the Prince George Hotel on Thursday night. Deputy-Reeve W. R. Aylesworth, of Kingston township, acted as toast-master. Mayor Angrove as well as a number of the members of the County Council spoke and the most amicable relations between city and county were evident from the tenor of the speeches. Congratulations from every side were extended to Mr. Graham on the honor which had been conferred on him. G. E. Rothwell contributed to the entertainment with several selections of the pipes during the evening and the mayor proved himself an able orator.

Mayor Angrove who was present as the representative of the city of Kingston stressed the unity of the city and county. He spoke of several matters of interest to both of these places; particularly the newly formed Tourist Association and the Juvenile Court. He said that he had been present at the recent conference held in the city looking toward establishing a fish hatchery here and he was sure that anything that would stop the depletion of the fish in the lakes of the county would be of benefit to both the city and county because it was to a large extent the fishing that attracted tourists.

The Juvenile Court, he said, he did not think as far as the city of Kingston was concerned, was a matter for present consideration. He was opposed to anything that would have a tendency to increase taxation. He said that the boys were leaving Canada by the hundreds because of the high taxation and he was not speaking in a political way at all. In concluding he tendered congratulations to the newly elected warden.

L. B. Cronk proposed the toast to the County of Frontenac and in so doing said that he would support in council only those matters which he felt were in the best interests of all sections of the county. J. E. Freeman responding, paid a tribute to Mayor Angrove and said that he thought he had done more for Kingston than any mayor who had ever graced the chair. Close co-operation was needed between the city and the county particularly with regard to the tourist traffic. It would be up to the city to act as the key stone and to send the tourists north into the county rather than let them go east or west, he said.

Melville Drew proposed the toast to The Guests and S. Jamieson responded. Mr. Jamieson said that he did not always agree with the reason sometimes given for the young men leaving Canada. Although this was primarily an agricultural country he thought the opportunities here were as fine as in any other country. He said that he blamed the governments for not borrowing money elsewhere at a lower rate of interest and paying back the Canadian people when their Victory Bonds matured. If this had been done he felt that there

INTERNATIONAL TESTS HEARD IN KINGSTON

Varied Programme Was Heard by Local Radio Fans.

The International radio tests were heard in Kingston on Wednesday night by Teddy Green of the City Property Department. Mr. Green says that he tuned in on the tests shortly after ten o'clock and that he was able to get French, English, German and Italian stations. The speaking was much clearer than the other parts of the programme. Mr. Green reports that as far as they know no one in Kingston has got the foreign stations. They had two very powerful sets on but were not able to get anything. What Green heard they say was a New York Station broadcasting in French, English, German and Italian to see if it could be picked up on the other side. This is done between 10 and 11. It is broadcast from the other side from 11 to 12.

The manufacture of gas is increasing in spite of the fact that gas as a means of lighting has largely given way to electricity.
