By a recent court decision, the civic authorities have the right to revise the police estimates; therefore the power of fixing the pay of police is really in their hands. The police commission can only recommend; the final decision is with the city council.

Roads Improving.
The roads are improving in the country, according to all reports from bus drivers, who were able to reach the city, in record time Tuesday morning. The mild weather of Monday did much to diminish the size of the snow drifts, which proved to be a menace to bus traffic last week.

Late Irving Daily.
Irving Daily, who died at Hollywood, Fla., was only seventy-six years old, but he linked the present to an event of the past that has come to be regarded as another era. It was Mr. Daily who operated the locomotive that hauled the first train over the Clayton, N.Y., branch of what is now the New York Central.

Liked the Address.
The Peterboro Examiner, in reporting a lecture given there by Rev. Canon FitzGerald of Kingston, said: The address was replete with humor and even in the more serious parts of it, one could note by the twinkle in his eye that he regarded life as a thing to be made the best of, and cheerfulness as a much better balm than tears.

One of the Devil's Agencies.
A Renfrew clergyman from his pulpit spoke of the new Canadian five-cent piece as "one of the devil's agencies." He says that people, in moments of weakness are often led to place them on collection plates in churches because of the resemblance which they bear to quarters. No fewer than fourteen of them were, he said, found on a collection plate very recently.

Forty Years in Business.

The inscription on the tablet, which is about 15 inches by 10 inches in size, reads: "The Regimental Funds of the Canadian Mounted Rifles Depot have been donated to the sanatorium in Hamilton, London and Kingston in memory of their comrades." The regimental crest is incorporated in the design of the tablet.

Special Singing.

Tompkins of Cobden was the special speaker, who delivered very forceful sermons dealing principally with man and his eternal welfare. Rev. Mr. Tompkins was pastor of the Holiness Movement Church here about eighteen years ago and has many friends in the city. He is remaining here in special services for the next two weeks, when the Evangel Male Quartette of Ottawa will be here.

Had a Narrow Escape.
A narrow escape from injury or possible death was experienced by F. W. Fulford and family Brockville, on Friday morning. Mrs. Fulford was awakened by a strong odor of smoke and the crackling of fire in the residence at 120 Abbott street and upon investigating found fire between the floors of the second story of the dwelling. The firemen made a quick response to a telephone alarm and by removing three boards from the door of a bedroom were able with the use of chemicals to extinguish the blaze. Under the floor the firemen found several mice nests, made of lint, feathers, and other combustible materials, and in the nests were several burnt matches. Nearby under the flooring were found several matches, which had not been burned, and had evidently been carried there by rats or mice. The chewing of matches by mice is believed to have been responsible for the outbreak, which fortunately was discovered before any loss of life occurred.
