Business Conditions Better.
Toronto, Feb. 6.—Hardware and Metal says: "Actual business conditions are better throughout Canada. The betterment in trade conditions is not confined to any one line, but extends to all classes of business. The market is resisting any attempt to advance prices, and any adjustments made are, as a rule, lower, in order to stimulate business. Manufacturers appear to be trying to keep prices from rising until a betterment of consumption will create a scarcity and justify an increase."

BABY'S WELFARE DURING FEBRUARY

Should be Most Carefully Guarded By All Mothers.
February is one of the hardest months of the year on little ones. It is a month of cold, blustery days that prevent the mother taking her baby out for the fresh air so necessary to its welfare. Baby is consequently confined to the home. More often than not the rooms are overheated and badly ventilated and the little one catches cold or grippe. What is needed to keep the baby well is a gentle laxative that will regulate the stomach and bowels; banish constipation and indigestion and in this way will either prevent or break up colds and grippe. Such a laxative is found in Baby's Own Tablets. They are mild but thorough in action; are absolutely safe and they are guaranteed to contain neither opiates or other harmful drugs. They never fail to be of benefit to little ones and may be given to either the newborn babe or the growing child.
Baby's Own Tablets are sold by all dealers in medicine or may be had by mail, post paid, at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Sale "Paper" Must Be Sound
WHEN the last annual has passed through the auction ring, when every implement of the farm equipment has been sold, what then? The vast majority of farm auction sales are conducted on a credit basis, but if the sale is to be counted a success a trained banking expert must pass judgment upon the soundness of all settlements.
