Alkali in Shampoos Bad For the Hair

If you want to keep your hair looking its best, be careful what you wash it with. Do not use prepared shampoos or anything else that contains too much free alkali.

Two or three teaspoonfuls of Mulsified is sufficient to cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy, wavy and easy to manage.

You can get Mulsified coconut oil shampoo at any drug store. It is inexpensive, and a few ounces will supply every member of the family for months. Be sure your druggist gives you Mulsified. Beware of imitations. Look for the name Watkins on the package.

You ought to know that giving a fellow an eye like mine does not endear a girl to him for the moment. Now, I've come to my senses and I know that I want you. Why, Judy, what have I been playing around with you all summer for if I didn't want you? That's a sure test, isn't it? Why, I never went with any other girl so long in my life! Come on, let's give the old folks a surprise and slip out and get married.

"Why don't you know, Judy, I never wanted a girl as much as I want you. Come on. Be a sport. Come and marry me tonight!"

I looked up at Charles Becker and again I laughed, and then I grew rather sick, but I kept up my bluff and said: "I'm afraid you don't understand, Chuch I told you that I'd made my threat that I wouldn't marry you if you were the last man on earth, good. I've persuaded Dad to let me go to Chicago and try to earn my own living!"
