AGED DESERONTO LADY FOUND DEAD IN HOME

She Died From Shock When Fire Broke Out in a Couch.

Deseronto, March 1.—A tragedy occurred at 2.30 a.m. Monday on the outskirts of the town when Mrs. Bridget Harrison, a widow of eighty years, disappeared from her home. The flames were seen first by Miss Gussie McCullough, attending her sister, who is ill. Don McCullough went down the road to the little Harrison home and saw through the window that a couch, on which were piled magazines and papers, was in flames, which were soon extinguished by him and Mr. Bert Mowers another nearby resident. A crowd soon gathered and searched in the sleeping apartments for the old lady who was made, and she was finally discovered lying dead under the table in the kitchen.

Mrs. Harrison has been a hard working respectable citizen for years. The sympathy of the community is extended to her daughter, Miss Eva, who at present is teaching in Simpson, Sask. Another married daughter, who with Miss Eva are the only living ones, sections of Miss Harrison lives in Marquis, Sask. It is expected that the remains will be kept at the home of Mrs. A. Gartland until the daughters arrive.

The remains of Mrs. Melville Woodcock was brought to the Deseronto vault on Monday afternoon, accompanied by a number of relatives.

Mr. Warren's ice boat came to grief on Sunday afternoon when Mr. Warren was host to a number of friends. The boat dipped into an ice hole where the ice harvest was being gathered. No one was injured, but the boat has been laid up for repairs.

Mr. Johnston, manager of the local branch of the Standard Bank, has been transferred temporarily to Ottawa, and leaves on Monday evening for his new duties. Though Mr. Johnston's sojourn here has been short he will be much missed by the large number of acquaintances he has made.

Rev. W. G. Richardson of the Presbyterian church accepted an invitation to preach in Toronto on Sunday. The Rev. Mr. Richardson's pulpit was occupied by the Rev. Mr. Bond of Kingston.

Mrs. Leo Therrien was hostess at a quilting bee on Monday afternoon. During the absence of Mr. Fred Hoppings his brother is employed at Miss Goodman's dry goods store on St. George street.

A fire was discovered late yesterday afternoon in the old chemical works, but the damage was very small.

Kingston Township Council.
A meeting of the Kingston Township Council was held on Monday afternoon. On account of the absence of two of the members of the council on account of illness, no business was transacted.

One of the members of the family of W. R. Aylesworth, deputy reeve, being ill in the hospital, both he and his brother, R. L. Aylesworth, also a member of the council, were absent.

When Does Old Age Come?

Will Lack of Vital Nerve Force, Ambition, Strength and Endurance Make You Old in Early Life!

To some "old age" may seem to come at 40, while others appear young and vigorous at 70 or 75. What makes this big and terrible difference? Why must so many folks give up their "youth" in the very prime of life?

The trouble, in most instances, lies in depleted nerve force—that "vital spark" that gives enduring energy and laughs at age! The lack of which robs us of most of our life—steals our youth and brings wrinkles, dimmed eyesight and grey hairs to those no more than 40 years old!

The Will to do and the Power to perform—the ambition, courage, confidence and strength to carry you to the Bigger, Better and more enjoyable things of life—are unmistakable signs of youthfulness, even though you may be a hundred years old!

In regard to keeping up "youth" and the deterrent of old age, we have heard and read much—but only recently have news articles told of "Double Strength Erbac," the greatest discovery of a well known chemist.

Young and old alike report speedy and satisfactory benefits—changed in a few days from a nerve starved victim of weakness and despondency to a feeling of courage and confidence with the strength and endurance of earlier life!

Responsible persons of all ages and in all walks of life make amazing statements—"Since taking Erbac I have felt better than anytime in 10 years!" "Erbac changed me from a nervous weakling to a healthy, happy man—who feels that life is now worth living!" "After two months use of Erbac, I have gained in weight and feel like a boy again."

This is remarkable evidence! Don't grow old before your time, and don't let lack of nerve force "sap" your energy and make you a pitiful weakling—but give Double Strength Erbac a chance to prove its value to you within the next 48 hours!

Erbac is not a cheap medicine—tablets cost about 2c. each—but James B. McLeod who sell and recommend it, will gladly return its cost to anyone not fully satisfied. Double Strength Erbac is perfectly safe and non-habit forming—but is not intended for children! Try it without risk to-day!

REAL ESTATE BRISK IN CITY AT PRESENT

Vacant Houses Being Rented—Locomotive Works Helps Landlords and Merchants.

According to information received by the Whig, real estate in Kingston is quite brisk at the present time. One real estate agent, speaking to a representative of the Whig, stated that he had a very large number of demands for houses.

When asked how this winter compared with last winter, he stated that it was a great deal better. In his own case, he stated that he had houses of his own vacant last winter which caused him a loss of \$100 per month. This winter he has but one house vacant, renting at \$15 per month. There are some houses vacant in Kingston but they have been filling up since Christmas.

It is stated, that as a result of the Canadian Locomotive Works getting busy, a large number of mechanics who left Kingston are returning. The return of the men not only benefits the landlords but also the store keepers.

LETTERS To The Editor Of The Whig

Amherst Island Ferry.

Sir: The prospects of our ferry steamer being in operation very early in 1926 are not very bright, at least not before autumn, but we believe that our rental reeve, Mr. Miller, in getting it a little closer every day. We must expect that it will take a considerable time to get business of that kind into shape.

One or two petitions which were circulated around the township in the past year, also gave the question a slight set back. Many people have the idea that the cost of operating a ferry would be very expensive. Not so, Mr. Davis of the Deseronto Dry Dock Co., Kingston, got out plans a few years ago, at the request of our council for a boat which he thought would be sufficiently large enough for the route.

It would be, I believe about 80 feet long and 24 foot beam. It would be equipped with special oil burning engines, speed about 8 miles an hour, and fuel cost "crude oil" small. We have it from good authority on boat construction and operation, men who have been in the business all their lives, on American and Canadian waters, that only one licensed man is required by law to operate boats of this size, and that one a captain, assisted by a machinist.

Now a boat such as I have mentioned could operate two days per week to Kingston and daily if needed to Millhaven wharf, from Emerald and Stella. With a good business man as manager, an up-to-date man who would always be on the alert for more and better business, I believe the ferry would be a success.

Yours very truly,
G. A. BOYLE.

NOT TO BUILD SUNDAY SCHOOL HALL AT PRESENT

Queen Street Church People Have \$18,000—Church Out of Debt.

It is not expected that the work of building the new Sunday school hall in connection with Queen street United church will be undertaken this year. The matter has been considered by the trustees on several occasions but nothing definite has been decided upon.

At the present time, the trustees have a fund amounting to about \$18,000 for the erection of such a building. It is understood that some of the trustees feel that more money should be available before any building scheme is undertaken.

Since the time the church edifice was destroyed by fire the members of the congregation have worked very hard to get the new building out of debt, with the result that it is now free of encumbrance.

Recently a campaign was held to increase the weekly offerings, and this has resulted in increased revenue being secured.

It has been suggested that perhaps through co-operation on the part of local congregations of the United Church of Canada in Kingston, a new Sunday school hall might not be required by the Queen street church.

Restored Strength and Former Good Health

Quebec Lady Was Weak, Excessively Nervous, Depressed and Weighed Down With Lumbago.

Mrs. E. Boyd Took Three Weeks' Treatment of Dodd's Kidney Pills and Amazing Results Followed.

Dunany, P. Q., Mar. 1. (Special)—That Dodd's Kidney Pills bring back health and strength is proved by the following statement from Mrs. E. Boyd, who resides at Dunany.

She writes:—"I took your Dodd's Kidney Pills because I was weak and excessively nervous. I was unable to work without feeling depressed, was also weighed down with lumbago and had no appetite. It has only taken a few weeks' treatment of Dodd's Kidney Pills to restore my strength and courage and former good health."

This statement speaks for itself. Ninety per cent. of the ills from which women suffer come from weak or diseased kidneys. They are the organs that strain all the impurities out of the blood. If they fail to do this, the impurities remain in the blood and are deposited all over the body.

Mowat Hospital Shortage Larger Than First Thought

Although nothing official is being given out, it is understood that the authorities at Mowat Hospital have discovered that more money is missing than was first announced. The amount of the additional loss is not known, but it is understood that it is quite an amount.

Although the Provincial Police have been working on the particulars surrounding the sudden disappearance of the former accountant at the hospital, they have been unable to get any trace of him.
