### FORDS, CHEVROLETS, McLAUGHLINS, REOS, STUDEBAKERS, OVERLANDS

Prices have been slashed for the benefit of the man who is ready to take advantage of the fact that we must move the Used Cars on hand to make room for the new merchandise that is due to arrive in March.

The time to buy is when the other fellow must sell, and the man who is seeking unusual economies in transportation will find what he is looking for here.

We have looked them over as carefully as a life insurance doctor examines an applicant for a \$10,000 policy. They have been re-conditioned by thorough automobile mechanics and when sold are delivered to the purchaser under our 30-day guarantee agreement. When they are offered to you we will tell you who owned them, what has been done to them, and just what you can expect from them.

Some of our oldest and best friends originally became acquainted with us through the purchase of a Used Car, and as Used Car selling is a permanent part of our business, we give special attention to the man who is in the market for a re-conditioned Automobile.

One cannot appreciate the values offered at this sale unless the Cars are inspected, so we strongly urge you to come and look them over while they last.

### Lift out Corn—root and all

Cutting corn, or using a so-called corn solvent is useless. You have probably tried and know yourself how the corn comes back again painful as ever in a week or less. The only satisfactory way to deal with an obstinate corn is to take a Radox Foot Bath once or twice; you can lift the whole corn out with your fingers.

How Radox Bath Salts Remove Corns When you put your feet into a foot-bath containing Radox the salts soften the hard outer layers of the corn and the oxygen which Radox liberates enters the pores, opens them, and penetrates further and further, carrying the corn-softening salts right to the root of the corn, which is thus loosened so that it can be lifted out bodily. This life-giving oxygen leaves the feet clean and healthy. Because it is the oxygen which carries the corn solvents to the root of the corn, and because Radox liberates, by test, more oxy-

gen than any other salts, it is obvious that Radox is more efficient in removing corns than any other salts. The Radox Bath Salt does not attack the living skin; it softens and refines this; it cannot dissolve it. It is only the dead skin—the corn—which it dissolves.

There is nothing left to ache; the corn is bodily removed. A Radox enthusiast writes:—"My wife tried plasters, salves, salts and soda to try and move her corn, which has nearly driven her mad the last three months; but they moved neither the corn nor the pain. We saw an advertisement showing a corn being pulled out. We sent for the Radox Bath Salts at 6 o'clock, and at twenty minutes to seven my wife was pulling the corn out, after years of agony. It is worth \$20 a package." Buy a package of Radox Bath Salts at the druggist.
